I hereby notify you that I have installed the following solid fuel burning domestic appliance **from the current [Ministry for the Environment authorised wood burners list](#)**:

Manufacturing company:

Appliance	Type	Authorised Fuel	Water Heater	Emission (g/kg)	Efficiency (%)

at the above address, all in accordance with AS/NZS 2918:2001 (Domestic Solid Fuel Burning Appliances Installation), AS/NZS 4013:1999 (Maximum Particle Discharge), AS/NZS 4012:1999 (Minimum Thermal Efficiency) and the manufacturers installation instructions.

In particular, the following requirements of AS/NZS 2918:2001 have been carried out:

- The chimney has been inspected, cleaned and is in a sound condition.
- The chimney is constructed of (please tick) brick pumice concrete
- The chimney is ventilated to manufacturer's instructions.
- The appliance is restrained against seismic activity.
- The appliance has been tested and approved by BRANZ as a zero rated heater.
- The fire surround at its connection to the fireplace is fully insulated with approved material.
(See BRANZ Building Information Bulletin 259, 1988).
- The ash hearth is of the correct dimensions to manufacturer's installation instructions.
