[FW Average house information .msg](#)

Hi all,

Some of you have been in touch regarding the Official Information request asking for average property values in your district from 2000 to 2021, requested by [REDACTED]. For the most part the requestor has sent their request to your regional councils, who have in turn transferred the request to city and district councils.

To assist we have reached out to the requestor and provided our QV House Price Index which includes monthly average values for the time period requested in the hope that this will eliminate the need for individual requests.

I have attached our response (issued on 28th July by our Chief Operating Officer Melanie Lewis). You may wish to include this email in any response you issue to the requestor, or you may choose to decline on the basis the information has already been provided.

Please reach out if you have any questions.

Cheers

Subject: Average house information

Dear [REDACTED]

I believe you are requesting property information from each of the Territorial Authorities in NZ under the Official Information Act. Many of the Territorial Authorities are assigning the request under the Official Information Act to QV as their valuation service provider and holder of their District Valuation Roll.

Please find attached the average price of property for all TA's (including historical information). There is more information on our website about the house price index.

<https://www.qv.co.nz/price-index/>

I hope this meets your requirements and will eliminate the need to undertake individual requests with each of the Regional or Territorial Authorities.

Please note - this information can be used in your research but cannot be distributed without our permission. We would appreciate receiving a copy of your research when it is completed.

Don't hesitate to contact me if you have any queries.

Kind regards,

Mel

Mel Lewis
