Hi Kim

Explore East-West road from Wainuiomata North to Waiwhetu.

I am not aware that any investigation was undertaken or that any enquiry has been made as to the cost of such an investigation. It really was just a high level concept. I have copied in John Gloag who may have a better idea of the potential cost of a more detailed investigation. John?

As to timing I think would depend on a couple of things – timing of Cross Valley Link road into which it would connect and timing of future development in Wainuiomata North which in turn will be dependent on infrastructure investment and its impact on viability of development.

the prioritized list of spatial elements

Certainly Kara and I are scheduled to be at the meeting with Erin so are available then – I have it in my diary for Wednesday at 11.30am not Thursday.

Cheers

Gary

Hi Kim,

I don't think there has been an estimate done of the investigation cost for this concept either. I know Ron Muir got some rough order costs done many years ago for the construction of a road from Wainuiomata to Naenae and it was significant.

If we were hoping to get NZTA subsidy for this project we would need to do the investigation and design as part of the business case process and this process takes time and money. For example, we have \$1m budgeted for the investigation and design of the Cross Valley Transport Connections project. Once the Strategic Business Case is endorsed by NZTA they then subsidise the rest of the business case development.

Or were you keen to understand the investigation cost as a stand-alone exercise?

Let me know and I can get you an estimate.

Cheers,
John
