433614	For over a year now myself, at [REDACTED], and my closest neighbour at [REDACTED], have had deer coming into our properties and eating the plants, leaving their copious droppings, and damaging the section. They've eaten the veggies, the hedge, many fruit and other trees, and the flower garden, particularly the roses. I haven't planted a veggie patch this year as the deer are still visiting and walking all over the garden. They have eaten the lower half of my hedge and killed some of the trees. They have also eaten trees in the drive way, which have had to have some branches removed as they've died. I often walk the track from [REDACTED] up into the hill and I am shocked to see how much damage the deer have done to the bush, particularly to the undergrowth. Knowing as I do, the tireless work my Dad, [REDACTED] and the Doc workers did to rid the bush of pests so as to reintroduce the Kiwi, I feel strongly to have this issue addressed. Surely having this number of deer coming into the neighbourhood for food is dangerous, (a stag went through my neighbours living room window one year), and I believe their ransacking of the bush is an ecological disaster waiting to happen. I would dearly like your help with finding solutions to this problem. I know there was a culling in Moore's Valley Road toward the end of last year. Is that at all possible here? [REDACTED] is a well established and striking street in Wainuiomata. My parents lived here from 1959, building a lovely house on the section which they'd cleared themselves, and I'm sad to think so much of what they and others in the community established could possibly be destroyed. 505550	Hi, please pass this onto Animal Control. The feral pig Issue at Point Howard continues between the cattery on Seaview Road and The Pines on upper Nikau Road and Howard Road. Residents gardens are being destroyed and rubbish bags are being ransacked. Is there a possibility that Animal Services / GWRC engage a professional pig hunter to eradicate the pigs? The Point Howard Assn may be able to contribute funding towards this if money is an issue. Many thanks, [REDACTED] PHA President. Issue Location: [REDACTED] Details: Caller has advised that there should be signs on Coast road in Wainuiomata saying wild deer roaming as she has seen wild deer on the road which after she has seen them they have run into the woods. 	<p>Kia ora, I am unsure what unit of "animals" to do so I just selected welfare, though it isn't really the issue. Anyway, I just wanted to report there is a dead deer behind Moera Kindergarten on Randwick Crescent. If you go behind it and over the raised footpath there is a ditch below where part of the river is and against the rocks there is a huge bloated deer. I spotted it while working today. After work I called DOC but as it isn't a native animal they couldn't do anything. I am not too bothered about it I just wasn't unsure if it is something I need to report as close to suburban homes, a kindergarten and walkway. I didn't want it to give a child a scare or have the dogs find it. I didn't call your emergency/urgent phone number just as I don't want to waste time if this isn't an urgent thing (am unsure what the procedure would be). But yeah anyway thank you very much :)</p>
