Hi

I'm currently doing some market research for our company [REDACTED]
We are looking to gauge the size of the bridge market in the Region which in turn helps us as a business to concentrate our support where it is needed most.

I was directed to this email address and hope you can assist by providing the following information:

- A list of all bridges in Hutt City Council area for the last 5 years that had consents approved including exemptions, building consents, and permitted activities
- Which industry the bridge services
- Date they were issued
- Location of the bridge

If the information is readily available, we would also like further information that could provide:

- Specifications of the bridges (type / length / possibly pile used)
- Who applied for the consents (Construction company if possible)
- What industry / client these bridges are servicing.

Thanks heaps
