Kia ora Marcus,

Thanks for the response, certainly hasn't seemed untimely to me.  
I had suspected this may be the case given the stage the projects are at but appreciate the clarification.

Regards,

Apologies for the delay in reply to this request. Under the current circumstances it has taken time to reach the correct person for reply.

The two projects referenced are proposals at this stage and are only in the concept design phase and as such items such as heating and power services have yet to be defined.

Both of these projects are seeking operational grants from Council and will be delivered by the recipients and not Council. At present we have not proposed placing environmental conditions on this grant.

Council is currently in the process of implementing its own set of environmental policies on construction and procurement but has not as yet worked on extending this to recipients of grants.

Kind Regards

Marcus Sherwood

**Subject:** Operational Grant Project Details

Kia ora,

I understand that Hutt City Council is this year considering to provide an operational grant to both Hutt Valley Gymsports and Hutt Valley Tennis for the respective organisations to develop/redevelop facilities.

For both the proposed projects can I please be provided details on what energy sources (electricity, natural gas etc) they propose to use and what, if any, energy efficiency standards the projects are designed to meet.

Regards,

[REDACTED]
