Annual Report 2018/2019 Employee Staffing Levels

Tēnā koutou katoa,

We received an email from Cr Mitchell noting a difference in the reported total number of staff for 2019 in the 2018-19 Annual Report and asked what was the reason for the revision of the figures?

The response from officers follows:

The 2019/2020 Annual Report corrected the prior year number for "Total number of staff" (head count) following a review and correction of the calculation methodology.

Ngā mihi nui,

Democratic Services Team
