

Esplanade And Foreshore Reserves Management Plan

Council Framework Regarding Reserve Management

The responsibility and statutory requirements towards reserve management needs to be clearly identified. The following diagram displays the relative positioning of the documents that effect the management of reserves and how those documents relate to each other.

All parts of Council need to reflect the approach and provisions adopted in the documents below:

PREFACE

Under the Reserves Act 1977, the Hutt City Council is required to prepare Management Plans for the reserves under its control, management, or administration. The management plan is to provide for and ensure the use, enjoyment, maintenance, protection, preservation and appropriate development of reserves.

The Hutt City Council has taken the approach of developing Management Plans that cover all reserves and fee simple land used as reserves, of similar characteristics and management. The categories of the Management Plans are:

- **Bush**

Bush Reserves are open space areas that are set aside predominantly for passive purposes. Bush Reserves generally vary in botanical content and quality but provide habitat opportunities, visual appeal in terms of landscape values (green space), and recreational opportunities.

- **Sportsgrounds**

This Management Plan covers sportsgrounds or any part of recreational grounds associated with sports and associated facilities that primarily provide for formally organised sporting activities.

- **Facility**

Facility Reserves are those reserves where the principal use is a facility for community activities supporting sporting, educational and recreational activities.

- **Neighbourhood**

Neighbourhood Reserves are located within residential areas and are essentially characterised by open space, with low levels of development, children's playgrounds and unstructured activity. Recreation activities generally consist of passive and active forms of recreation such as walking, playing and informal ball games. Neighbourhood Reserves contribute to the appearance of surrounding areas by providing areas of open space and limited vegetation.

- **Amenity Horticulture**

Amenity Horticulture Reserves are open spaces with a diversity of functions, but managed predominantly for horticultural purposes. Areas within these reserves are intensively cultivated and contain a wide variety of species and shrubs, and flower display areas, available for public enjoyment and passive and active recreational opportunities.

- **Esplanade and Foreshore**

Esplanade and Foreshore Reserves are linear areas of land adjacent to a body of water or water course. This includes the harbour, lakes, rivers, streams, and some drainage ditches throughout the City.

- **Little Blue Penguins**

This Management Plan is for the little blue penguin haven in Days Bay. It involves three lots that are vested as Local Purpose Reserve (Wildlife Management) under the Reserves Act 1977.

There are a number of 'Multi' reserves included within the series of Reserve Management Plans. Multi reserves are those reserves that contain differing characteristics and management within the one land parcel. This in turn means that more than one Management Plan applies to that area. The following reserves are considered to be 'Multi'.

Avalon Park	Ngaturi Park
Bryan Heath Park	North Park
Delaney Park	Richard Prouse Park
Dowse Drive Reserve	Sladden Park
Frank Cameron Park	Taita Cemetery
Hikoikoi Reserve / McEwan and Lions Park	Te Whiti Park
Hutt Rec / Huia Pool	William Jones Park
HW Shortt Park	William Jones Swimming Pool
Leonard Wood Park	Williams Park
Memorial Park/Garden of Remembrance	Wingate Park
Naenae Park	Wise Park/Hugh Sinclair Park

The overall design and structure of the Management Plans are generic in nature allowing the application of general policy while providing flexibility in the application of specifics to reserves with unique characteristics. The Management Plans are not exhausted with the specific detail of development proposed for every reserve in the City, but rather use policies to guide any future development and operations in a consistent manner.

The Reserve Management Plans are to be used alongside the Hutt City Council Reserves Draft Strategic Directions and the City of Lower Hutt Proposed District Plan in achieving any outcomes.

On Wednesday 17 April 2002 the Strategy and Policy Committee of The Hutt City Council confirmed the completion of the Esplanade and Foreshore Reserve's Management Plan under the Reserves Act 1977. The Plan is now adopted as Council policy and is operational under the Reserves Act 1977.

- Schedule 2 – Dog Exercise Areas

1.0 Introduction

1.1 Purpose of a Reserve Management Plan

Esplanade and Foreshore Reserves offer the public the opportunity to access and pursue a wide range of recreational activities along the margins of water bodies throughout the City. The reserves also protect and enhance important habitat opportunities for aquatic terrestrial and marginal plant and animal species. In some cases it is appropriate to make provision for the public to experience the distinctive ecosystem found between land and water.

The purpose of the Esplanade and Foreshore Reserve Management Plan is to provide a policy framework for the use, enjoyment, maintenance, protection, and appropriate development of Esplanade and Foreshore Reserves throughout the City of Lower Hutt. This will ensure consistency in terms of the management of current reserves and the establishment of further reserves. This Management Plan shall supersede any past Reserve Management Plan that applied to any of the Esplanade and Foreshore Reserves identified in this document. This Management Plan applies to all Council Esplanade and Foreshore Reserves listed in Appendix 1 regardless of classification under the Reserves Act 1977, and has been prepared in accordance with the procedures outlined in section 41 of the Reserves Act 1977.

1.2 Identification of Esplanade and Foreshore Reserves

Esplanade and Foreshore Reserves are linear areas of land adjacent to a body of water or water course. This includes the harbour, lakes, rivers, streams, and some drainage ditches throughout the City of Lower Hutt. Esplanades Reserves are generally taken and vested in Council through the subdivision process or classified under the Reserves Act 1977. Appendix 2 illustrates the extent and location of Esplanade and Foreshore Reserves within the City of Lower Hutt.

Esplanade and Foreshore Reserves generally have similar characteristics and purposes and therefore a single generic plan has been prepared to cover such reserves. These reserves are either properties managed by Council and held in fee simple ownership for reserve purposes, or reserves that are classified as such under the Reserves Act 1977. All Esplanade and Foreshore Reserves listed in this Management Plan will be managed and developed in accordance with the Reserves Act 1977, as it is desirable to achieve the same management and development objectives for all reserves of a similar nature. Including areas held in fee simple ownership by the council does not however give them any status as reserves under the Reserves Act 1977. Any additional reserves identified in the future, which are developed for facility purposes, will be added to this Management Plan and will be publicly notified in accordance with the provisions of the Reserves Act 1977.

1.3 Existing Documents and Provisions

Currently there are a number of documents and provisions that also address, and are of relevance to, reserves included in this Management Plan. The documents include:

Regional Coastal Plan for the Wellington Region 2000

This Plan is a statutory requirement of section 64 of the Resource Management Act 1991 and applies to the foreshore reserves below the mean high water springs, within this Management Plan. The Plan addresses the issues surrounding the balance between amenity values and intrinsic values within the coastal foreshore area. Key issues include use and access and development within the coastal marine environment.

Regional Freshwater Plan for the Wellington Region 1999

This Plan is a statutory requirement under section 63 of the RMA 1991 and applies to river, stream and lake esplanade reserves in this Management Plan. The Plan addresses the balance between amenity values and intrinsic values within the riparian environment. Key issues include use and access, weed and pollution control, flood mitigation, pest plant control and development within the riparian environment.

Waiwhetu Stream Action Plan 2001

This Action Plan is a guide for the development of esplanade reserves along the Waiwhetu Stream. Main issues include weed control, flood mitigation measures, access, recreational opportunities, and rehabilitation of biodiversity.

Hutt River Floodplain Management Plan

The Hutt River Floodplain Management Plan provides a 40-year blueprint for managing and implementing programmes to reduce flooding effects from the Hutt River. The Hutt River Environmental Strategy accompanies this Management Plan.

Hutt River Environmental Strategy

This document describes the long-term vision for the Hutt River and its corridor ensuring they are managed in a way that maintains the agreed standard of flood protection, maintains and enhances the river environment, provides for a range of recreational uses, and contributes positively to the community's spiritual mental and physical well being.

Eastern Bays Marine Drive Design Guidelines

These guidelines were prepared by the Eastern Bays Marine Drive Steering Group (and subsequently adopted by Council) to specifically consider the immediate environment of the Eastern Bays Marine Drive, and in particular the coastal edge.

Walkways Review 1998

The review considers the development of a streamside walkway between Rossiter Avenue and Guthrie Street, Waiwhetu.

1.4 Legislation

The Reserves Act 1977 guides the preparation and implementation of reserve management plans. Other legislation that is of relevance in the preparation of this document includes the Resource Management Act 1991, Building Act 1991, Sale of Liquor Act 1989, Health and Safety in Employment act 1992, Hazardous Substances and New Organisms Act 1996, Bio Security Act 1993 and Disabled Persons Community Welfare Act 1975.

1.5 Consultation

The intention to prepare a Draft Reserve Management Plan for Esplanade and Foreshore Reserves was advertised in the Hutt News on February 27, 2001, and followed up in other local publications and a letter mail out to likely interest groups and lease and licence holders. Publicity material was also prepared and distributed for display at all Council Libraries. Determining community preferences and establishing the best means to provide for them, are primary reasons for public notification during plan development.

1.6 Management and Monitoring

This Management Plan will be fully reviewed at five yearly intervals. In addition, a continuous process of monitoring the Management Plan will be carried out, with Council making alterations and additions as changing circumstances or increased knowledge may require. Any proposed changes will be publicly notified in accordance with the provisions of the Reserves Act 1977.

2 The City of Lower Hutt Proposed District Plan 1995

The City of Lower Hutt Proposed District Plan 1995 places reserves within one of the five recreation activity areas. Issues, objectives, policies and rules have been developed for each of these activity areas. These provide an overall management framework for the type of activities and structures that can be located on reserves. Esplanade and Foreshore Reserves predominantly fall into the Special, General or River Recreation Activity Areas under the City of Lower Hutt Proposed District Plan. The Resource Management Act 1991 and the Reserves Act 1977 become interrelated in the management of reserves through the approach taken in The City of Lower Hutt Proposed District Plan.

3 The Hutt City Council Bylaw 1997

The Hutt City Council Bylaw 1997 outlines conditions for the operation of parks and reserves. This includes requirements for the hours of operation, closing of reserves, imposing of conditions, offences and any other prohibited activities. The provisions for public places and dog control are also of relevance to this Management Plan. This Bylaw should be read alongside the provisions of this Esplanade and Foreshore Reserve Management Plan.

4 Aims

The aims of this Management Plan are to:

- Identify those areas that are Council owned and/or administered as outlined in Section 1.2 of this Management Plan;
- Outline the requirements for the management and development of Esplanade and Foreshore Reserves around the City;
- Ensure a generally consistent approach is undertaken with regard to the management and development of Esplanade and Foreshore Reserves;
- Ensure that all activities on Esplanade and Foreshore Reserves are undertaken in accordance with the Reserves Act 1977, and other relevant provisions in related legislation;
- Ensure that any development on reserves is for the purpose of better utilisation and enhancement of reserves, and will benefit the City.

5.0 Issues Objectives and Policies

It is fundamental to the management and development of Esplanade and Foreshore Reserves that issues, objectives and policies are clearly defined so that decisions on any activity proposed or carried out on these reserves are made in accordance with those provisions.

5.1 Statutory and Legal Requirements

Issue

There are a number of statutory and legal requirements that activities on Esplanade and Foreshore Reserves must satisfy.

Objective

To ensure that all statutory and legal requirements pertaining to the management and use of Esplanade and Foreshore Reserves are met.

Policies

- (i) That Esplanade and Foreshore Reserves be managed in accordance with their classification under the Reserves Act 1977.
- (ii) That relevant provisions of the Resource Management Act 1991, The Regional Policy Statement 1995, the Lower Hutt City Proposed District Plan, The Hutt City Council Bylaw 1997 and any other relevant policy document including those listed under section 1.3, are satisfied.
- (iii) That Esplanade and Foreshore Reserves which are inappropriately classified or not classified under the Reserves Act 1977 in terms of their use, be reclassified appropriately.
- (iv) That Esplanade and Foreshore Reserves which are held as fee simple be controlled and managed as a reserve in accordance with the purposes of sections 17 and 23 of the Reserves Act 1977.
- (v) Council employees or any agent undertaking contract work for the Council shall act in accordance with the requirements of the Health and Safety in Employment Act 1992, and Hutt City Council's Health and Safety Policies.
- (vi) That while Council shall take all reasonable care in administering Esplanade and Foreshore Reserves, users shall use the reserves entirely at their own risk in every respect. The Council shall have no liability for any loss or damage suffered by users.
- (vii) That any provisions relating to historical, cultural heritage, and archaeological sites registered or identified under the Historic Places Act 1993 or the Proposed District Plan are satisfied.

5.2 Iwi Mana Whenua

Issue

Council has a responsibility under the Resource Management Act 1991, to consult with Te Atiawa the Iwi Mana Whenua.

Objective

To ensure proposed development and activities on Esplanade and Foreshore Reserves are considered in accordance with the principles of the Treaty of Waitangi, and Part II of the Resource Management Act 1991.

Policies

- (i) That Te Atiawa be consulted where a significant development or activity is proposed on an Esplanade or Foreshore reserve.
- (ii) That Council takes account of concerns or issues raised by Te Atiawa or Taura Here during the consultation process.

5.3 Conservation of Flora and Fauna

Issue

Some Esplanade and Foreshore Reserves possess areas with high conservation values. It is necessary to ensure that activities and development on Esplanade and Foreshore Reserves do not adversely affect these conservation values.

Objective

To conserve those qualities of the reserve which contribute to the pleasantness, harmony and cohesion of the natural environment.

Policies

- (i) To maintain a balance between planted areas and areas of open space in keeping with the reserve characteristic.
- (ii) To conserve the indigenous flora and fauna, natural environment and beauty, and historic and scientific values of the land where appropriate.
- (iii) To recognise that it is desirable to encourage the growth of both native and exotic species cover in selected reserve areas for ecological and landscape purposes, as well as fire prevention and flood protection.
- (iv) To recognise that it is generally desirable to encourage the growth and regeneration of indigenous vegetation in reserve areas where native species are already dominant.
- (v) That established trees and native vegetation be maintained on Esplanade and Foreshore Reserves, except where it is considered necessary to cut or destroy them in accordance with section 42 of the Reserves Act 1977.

- (vi) That Council be committed to protecting any existing significant natural features.
- (vii) That amenity and shelter planting on Esplanade and Foreshore Reserves be encouraged in locations that are considered appropriate.
- (viii) To maintain an attractive and mutually beneficial relationship with the Wellington Regional Council and the Waiwhetu Stream Action Group for the purpose of improving the general Waiwhetu Stream Environment.

5.4 Further Development on Esplanade and Foreshore Reserves

Issue

It is necessary that policies ensure that any future development on Esplanade and Foreshore Reserves is compatible with the character of the reserve.

Objective

To ensure that provision of any new development (includes structures, paths, and plantings) on an Esplanade or Foreshore reserve is undertaken in a manner that achieves compatible and integrated use of the surrounding area.

Policies

- (i) To consider, where appropriate the development of facilities that will provide a benefit to users of reserves. These facilities will be developed in accordance with the provisions of the City of Lower Hutt Proposed District Plan and those under section 1.3 of this Plan.
- (ii) To promote and encourage the efficient and multiple use of any buildings and ancillary services.
- (iii) To develop Esplanade and Foreshore Reserves in accordance with site characteristics and the identified needs of the public, and develop as a focus for the local community

5.5 Passive and Active Recreation

Issue

It is important that Esplanade and Foreshore Reserves allow for the purposes of passive and active recreation activities where appropriate. These activities may include cycling, walking, dog walking, relaxing, picnicking, running, playing, bird watching, sitting or contemplating.

Objectives

To ensure that an adequate amount of space is available for passive activities to occur.

To allow active recreation activities to be undertaken on areas of reserve, where appropriate.

Policies

- (i) That any development on Esplanade and Foreshore Reserves takes into consideration the amount and characteristic of space available on the reserve for active recreation activities.
- (ii) That it is appropriate to enhance the potential for passive recreational pursuits on Esplanade and Foreshore Reserves.

5.6 Plant Pest Control

Issue

Under the Biosecurity Act 1993 and regional pest management strategies adopted under that legislation, Council has legal obligations to control and if possible eradicate, all plant species designated as pests, within the Council boundaries.

Objective

To ensure the reduction of weed infestation in Esplanade and Foreshore Reserves

Policies

- (i) That the plant pest control programme currently in place shall be maintained and periodically reviewed to ensure effective management of plant pest species.
- (ii) That the removal of plant pest species is permitted in Esplanade and Foreshore Reserves only under authorisation of Council for pest control purposes.

5.7 Tracks on Esplanade and Foreshore Reserves

Issue

Well marked and maintained tracks are essential for visitors to experience and enjoy Esplanade and Foreshore Reserves and their natural values. Tracks also help to minimise human impacts on the Esplanade and Foreshore by channelling visitors away from more sensitive areas and concentrating use in selected places. The public need to be encouraged to keep to the tracks to ensure the protection of vegetation and prevent unnecessary erosion.

Objective

To provide and maintain good quality tracks within Esplanade and Foreshore Reserves

Policy

- (i) Meet and reflect the Walkways Review 1998 by the Leisure Services Division.

5.8 Educational Role for Esplanade and Foreshore Reserves

Issue

Esplanade and Foreshore Reserves play an important educational role by providing the opportunity to interface with riparian and aquatic natural systems in the outdoor environment.

Objective

To ensure that the Esplanade and Foreshore Reserves maintain and develop interpretative and educational material and allow the public interaction with natural systems.

Policies

- (i) To encourage the use of selected Esplanade and Foreshore Reserves as an educational facility for schools, tertiary institutions and the general public.
- (ii) To maintain and develop interpretative material of a standard that allows for accurate and up to date information to be displayed.
- (iii) To continue to maintain a close working relationship with user groups, volunteer groups, Department of Conservation, and the Wellington Regional Council.

5.9 Effects on Adjacent or Neighbouring Properties

Issue

Activities occurring on Esplanade and Foreshore Reserves may adversely affect the amenity values of adjacent or neighbouring areas. Possible adverse effects could include flooding, light spill, shading, noise, property damage, lack of parking and traffic congestion.

Objective

To ensure the adverse effects of activities on Esplanade and Foreshore Reserves are adequately mitigated so that the amenity values of adjacent or neighbouring properties are not compromised.

Policies

- (i) That activities on Esplanade and Foreshore Reserves must satisfy relevant provisions of the City of Lower Hutt Proposed District Plan or any document under section 1.3.
- (ii) That the nature and proximity of neighbouring properties be considered when any activities, significant maintenance or development on Esplanade and Foreshore Reserves is planned. Development includes drains, paths, park furniture, vegetation and tree planting, or removal, and structures.
- (iii) That where activities undertaken by leaseholders on reserves are causing a nuisance to adjoining residential properties, the Divisional Manager of Leisure Services may recommend that consultation be undertaken between the leaseholder and the affected property owners. This consultation should be aimed at resolving the issues with appropriate mitigation measures for long term benefit.

5.10 Access and Parking on Reserves

Issue

Although public use and enjoyment is one of the primary purposes of reserves, it is not always appropriate to allow unrestricted public access. In order to protect the public safety, functioning, well being and associated values of Esplanade and Foreshore Reserves, it is necessary to limit access in some instances. It is also appropriate that parking on reserves is limited to areas specifically set aside for that purpose, to ensure that carparking does not detract from the natural qualities or potential of the reserves for recreational use.

Objectives

To ensure that the public has access to suitable Esplanade and Foreshore Reserves and that this access is maintained and enhanced where appropriate.

To ensure that parking is only carried out on reserves where areas are specifically set aside for that purpose.

Policies

- (i) That all parking on Esplanade and Foreshore Reserves complies with the provisions of the City of Lower Hutt Proposed District Plan.
- (ii) That consideration is given to the location of structures and vegetation to ensure that pedestrian access to Esplanade and Foreshore Reserves is not restricted.
- (iii) That any conditions and restrictions on access are only imposed where they are necessary for the protection of the land, waterway, harbour, vegetation, structures, or the public using it.
- (iv) That except for Council employees, agents appointed by Council, and emergency services, vehicular access onto Esplanade and Foreshore Reserves shall be prohibited unless authorised by the Manager of the Leisure Services Division (Section 53 and 54 of Reserves Act). This policy does not apply to areas specifically set aside for parking, or boat launching purposes on reserves.

5.11 Safety on Esplanade and Foreshore Reserves

Issue

The safety of the general public on Esplanade and Foreshore Reserves.

Objective

To ensure that Esplanade and Foreshore Reserves are adequately maintained and provide a safe environment for people to enjoy.

Policies

- (i) That identified reserves are kept in a tidy state through regular maintenance of the area including lawn mowing, tree pruning, weeding, spraying, and other recognised horticultural and arboricultural practices.
- (ii) That any planting of trees and shrubs does not create a safety issue in terms of the density, shape and height of the trees and shrubs, or adversely affect flood management purposes.
- (iii) That safety measures are in place for traffic and pedestrians within road reserve areas.

5.12 Signage on Esplanade and Foreshore Reserves

Issue

Signs aid community awareness of the reserve and may be necessary to promote safety or provide information or directions.

Objective

To provide suitable interpretation and signage in appropriate locations

Policies

- (i) That all signs shall satisfy the provisions of the City of Lower Hutt Proposed District Plan.
- (ii) That Council signs be placed in suitable locations and include appropriate information so as to provide the most assistance to users of Esplanade and Foreshore Reserves.
- (iii) That signs are designed in a manner that does not detract from the amenity values of Esplanade and Foreshore Reserves and neighbouring properties.
- (iv) That the number of signs is kept to the minimum necessary to give information and directions or provide interpretation.

5.13 Refuse Disposal

Issue

The dumping of refuse on Esplanade and Foreshore Reserves or inappropriate use of existing refuse disposal facilities, can significantly detract from the amenity values and proper functioning of Esplanade and Foreshore Reserves. It is essential that reserve users are strongly discouraged from disposing of refuse in reserves or waterways or the harbour adjacent to reserves.

Objective

To ensure the proper functioning and amenity values of Esplanade and Foreshore Reserves are not compromised by refuse being dumped on reserves, or refuse being dumped in any location other than in a facility provided for that purpose.

Policies

- (i) That Council encourages people to take their refuse from reserves.
- (ii) That no person shall deposit any domestic refuse, trade refuse, dead animals, garden refuse, rubble or debris on an Esplanade or Foreshore reserve. Legal action will be taken if persons are caught committing this offence.
- (iii) That where appropriate, Council, or its agent, may provide and regularly empty refuse disposal facilities on Esplanade and Foreshore Reserves.
- (iv) That the disposal and collection of refuse on Esplanade and Foreshore Reserves shall satisfy relevant provisions of the Hutt City Council Bylaw 1997, in particular Part 12 – Parks and Reserves, and Part 14 – Refuse Collection and Disposal.

5.14 Restricted Activities

Issue

Location, size, ecology, existing activities, and functions determine the nature and characteristics of Esplanade and Foreshore Reserves. It is necessary to restrict activities that may conflict with the characteristics and nature of each reserve.

Objective

To restrict activities on Esplanade and Foreshore Reserves that may cause conflict with the residing characteristics and uses.

Policies

- (i) That those activities listed as prohibited in the Hutt City Council Bylaw 1997, Part 12 – Parks and Reserves shall also be prohibited by this Management Plan (See Appendix 3).
- (ii) That in accordance with the Hutt City Council Bylaw 1997 and the Hutt City Council Dog Policy (adopted in 1997), if a dog defecates on a Esplanade and Foreshore reserve, the owner or person having control of the dog shall immediately remove the faeces.
- (iii) That it is recognised that dogs are prohibited from children's playgrounds under Part 4 of the Hutt City Council Bylaws. Dogs may only run free in reserves that are identified for that purpose by the Hutt City Council Bylaw 1997 (See Appendix 4).
- (iv) That all new activity occurring on an Esplanade or Foreshore Reserve conforms to the City of Lower Hutt Proposed District Plan and any other relevant provisions of this Management Plan or those listed under section 1.3 of this Plan.

- (v) No fire shall be lit in any Esplanade and Foreshore Reserves, but the use of gas cookers and gas barbecues is permitted.
- (vi) That no motorbikes or motorised recreational vehicles (4WD), horses or mountain bikes be allowed on to Esplanade and Foreshore Reserves except with the permission of Council or in an area where the specific use is allocated for or deemed acceptable by Council.
- (vii) Horses are permitted on the Esplanade areas alongside Black Creek (The Pony Trail), Wainuiomata. They are not permitted on any other properties managed by Council under this Management Plan except with the permission of Council.
- (viii) That private encroachments on to Council land are dealt with under the provisions of the Private Encroachments of Council Land Policy and Encroachment and Disposal Policy on Reserves.

5.15 Leases and Licenses

Issue

Leases and licenses are contractual arrangements made between Council and community groups or organisations utilising land and facilities on Esplanade and Foreshore Reserves. The responsibilities of both Council and the lessee or licensee should be clearly stated in the lease or license agreement. A clear statement of responsibilities ensures that the lessee or licensee knows exactly what Council considers to be acceptable use and behaviour of the land and facility.

Objectives

To allow leasing and licensing of land and facilities on Esplanade and Foreshore Reserves to community groups or organisations provided the activity is consistent with the purpose for which the reserve is classified.

To control the use of land and facilities on Esplanade and Foreshore Reserves by including conditions on lease and licence agreements so that amenity values or surrounding areas are maintained or enhanced.

To renew those leases and licences currently held for the use of facilities, which ensure continued use of the land and facilities, but which do not compromise the land and facility, or amenity values of the surrounding area.

To satisfy relevant provisions of the City of Lower Hutt Proposed District Plan or those under section 1.3 of this plan.

Policies

- (i) That Council shall consider leasing facilities (and the underlying land) on Esplanade and Foreshore Reserves, where the use of the facility is consistent with the activity of the reserve.
- (ii) That lease and licence agreements (including renewals) be negotiated in accordance with the Reserves Act 1977.

(should provide for leases + licences)

- (iii) That lease and licence agreements shall be based on the standard Council documents, but from time to time may include other terms and conditions as determined by Council.
- (iv) That all facilities subject to lease and licence agreements be maintained in accordance with the conditions specified in the lease or licence.
- (v) That all lessees or licensees are required to act in accordance with this Management Plan, the relevant provisions of the City of Lower Hutt Proposed District Plan, the Hutt City Council Bylaw 1997, and the relevant lease and licence agreement.
- (vi) That the lessee or licensee will not permit activities at the facility to cause a nuisance, annoyance or inconvenience to neighbours and other users of the Esplanade and Foreshore reserve.

Hutt City Council Bylaw – Part 12 – Parks and Reserves

PART 12 - PARKS AND RESERVES

1201 Interpretation

1201.1 In this part of the bylaw, unless inconsistent with the context or where otherwise expressly provided:

CUSTODIAN means a person for the time being lawfully appointed to control or supervise a reserve.

RESERVE means any open space, plantation, park, garden or ground set apart for public recreation or enjoyment which is under the management or control of the Council and includes all land administered by the Council under the Reserves Act 1977.

1202 Hours of Opening

1202.1 Subject to the provisions of this part of the bylaw and the Reserves Act 1977, all reserves shall be open to the public daily free of charge.

1203 Closing of Reserves

1203.1 The Council may by publicly notified resolution determine the days and hours during which a reserve shall be open or closed to the public.

1203.2 The Council may at any time, by a notice displayed at the entrances to a reserve, declare the reserve to be closed when it is necessary for maintenance, construction or other work to be carried out on the Reserve.

1204 Children

1204.1 No child under the age of 12 years who is not accompanied by an adult shall be permitted to enter or remain in any glass house or fernery on a reserve.

1205 Prohibited Activities

1205.1 No person shall:

- (a) remove, damage or destroy any label or inscription attached to a plant, sign, noticeboard or tablet in a reserve.
- (b) remove, damage or destroy any hedge, natural object or other structure on or enclosing a reserve.
- (c) take, deposit, remove or disturb any soil in a reserve.
- (d) uproot, or injure any shrub, tree or other growth in a reserve.
- (e) take any cutting or interfere with, pick or pluck any flowers, ferns or greenery in a reserve.

- (f) walk upon a grass border adjoining any formed path in a reserve.
- (g) Enter any enclosures or places set apart for the cultivation of plants in a reserve without the prior permission of the custodian.
- (h) Walk, drive, ride or trample, in a reserve:
 - (i) on any plantation, flower-bed or border; or
 - (ii) on any grass prepared for cricket, bowls, croquet or any other game.
- (i) Deface or damage a building in a reserve.
- (j) Leave any litter in a reserve, unless placed in a rubbish bin.
- (k) turn in or allow cattle or poultry to wander or graze in a reserve, without the prior permission of Council.
- (l) Ride or drive any cattle, drive a motor vehicle, bicycle or other machine within a reserve without the prior written consent of the Principal Administrative Officer **PROVIDED THAT** this clause shall not apply to wheelchairs or children's prams.
- (m) Swim, wade or wash in any ornamental water in a reserve.
- (n) Pollute any ornamental water in a reserve.
- (o) Light a fire in a reserve, except in a place provided by Council for that purpose.
- (p) Place a placard, billboard or notice on a reserve without the prior written consent of the Principal Administrative Officer.
- (q) Distribute any notices or leaflets in a reserve without written permission from the Principal Administrative Officer.
- (r) Erect a structure of any kind in a reserve without written permission from the Principal Administrative Officer.
- (s) Sell or offer for sale, any food, merchandise, alcohol or other kind of drink, or carry on a trade in a reserve without written permission from the Principal Administrative Officer and subject to compliance with the provisions of this bylaw and any relevant legislation.
- (t) Act in an improper, indecent or disorderly manner, or use foul or abusive language or disturb, annoy or interfere with any other person's use and enjoyment of the reserve.
- (u) Carry or take a firearm or other weapon of any kind onto a reserve without a permit authorised by the Principal Administrative Officer **PROVIDED THAT** a permit shall only be granted if the Principal Administrative Officer is satisfied that the weapon will be used for hunting or leisure purposes and the operator holds a valid firearms licence in accordance with the Arms Act 1983.
- (v) Except where a permit is granted in accordance with clause 1205.1(u), destroy, shoot, snare, injure, interfere with or take any animal, fish, bird, bird's nest or bird's egg in or from a reserve.
- (w) Play organised sport in any part of a reserve that is not set aside for that purpose.

- (x) Play a game or engage in an activity on any playing ground on a reserve, after being requested by the Custodian to leave or when a notice is erected at the entrance to the playing ground or reserve saying "Ground Closed".
- (y) Organise or take part in an organised picnic or athletic sports on a reserve, without the written permission of the Principal Administrative Officer.

1206 Conditions

1206.1 In granting permission in accordance with clause 1205.1(y) the Principal Administrative Officer may impose conditions in respect of all or any of the following matters:

- (a) The times of and charges for the use of the reserve;
- (b) Charges of the admission of the public to the reserve or to any stand, building or special enclosure on the reserve;
- (c) Possible injury or damage to the reserve or anything on or in the reserve.

1207 Offence

1207.1 Every person committing any breach of the provisions of this part of this bylaw shall, upon request by the Custodian, immediately leave the reserve.
