

Proposed District Plan Change 17

**11 SEDDON STREET, NAENAE –
REZONING AS GENERAL RESIDENTIAL ACTIVITY AREA**

**Publicly Notified:
Submissions Close:**

**12 April 2011
13 May 2011 at 5.00pm**

Part 1: Introduction

1. What is Proposed Plan Change 17?

The purpose of Proposed Plan Change 17 is to re-zone the Hutt City Council (Council) owned site at 11 Seddon Street from General Recreation Activity Area to General Residential Activity Area in the City of Lower Hutt District Plan (the District Plan).

The site is as follows:

A parcel of land of approximately 1,000 m² in size, being part of Part Lot 1 DP 33067, CT WN21D/849, 11 Seddon Street. It comprises the former custodian's house and grounds at Naenae Park.

The operative District Plan Map containing this site is attached as Part 4 Appendix 1.

2. Reason for Proposed Plan Change

Since 2007 Council has been undertaking a review of all the land it holds in fee simple title throughout the City. The objective of the review is to ensure all Council owned land is being used for the most appropriate purpose. The review included an assessment of the contribution made by each of these sites to the City's open space and reserve network.

The site the subject of this Proposed Plan Change was included in the review as it was considered by Council to no longer be required for the recreational purpose for which it was originally acquired. Further assessment by Council of the future potential of this site concluded that its contribution to the local and city-wide open space/recreational network was low. Consequently, Council has resolved to declare the land surplus for recreational and open space purposes subject to the outcome of this proposed plan change to re-zone it residential.

3. Structure of this document

This document contains five parts:

Part 1	is this introduction
Part 2	contains a copy of the public notice for Proposed Plan Change 17 which was advertised in the Hutt News on 12 April 2011
Part 3	shows the amendments proposed to the District Plan Map E4
Part 4	is a copy of the <i>Section 32 Evaluation</i> prepared for Proposed Plan Change 17, as required by section 74 of the Resource Management Act 1991
Part 5	contains a copy of a submission form (Form 5)

All five parts of this document are publicly available from Hutt City Council as detailed in Part 2 of this document.

4. The Process for Proposed Plan Change 17

The process to date for preparing Proposed Plan Change 17 can be summarised as follows:

March – September 2009	Consultation with relevant parties (through proceedings under the Reserves Act 1977 and Local Government Act 2002)
15 December 2009	Need for Plan Change identified (resolution of Council) and Council approval to prepare Proposed Plan Change
15 March 2011	Proposed Plan Change adopted by Council for public notification
12 April 2011	Proposed Plan Change notified

Upon notification, all interested persons and parties have an opportunity to make further input through the submission process. The process for public participation in the consideration of these proposals under the Resource Management Act 1991 is as follows:

- After the closing date for submissions, Council must prepare a summary of the decisions requested by submitters and publicly notify its availability;
- There is an opportunity to make a further submission in support of, or in opposition to, submissions already made;
- If a person making a submission asks to be heard in support of his or her submission, a hearing must be held;
- Council must make a decision on the proposals (including its reasons for accepting or rejecting submissions); and
- Any person who has made a submission has the right to appeal Council decisions on the proposals to the Environment Court.

PUBLIC NOTICE

Public Notification of Proposed District Plan Change 17 to the City of Lower Hutt District Plan

Clause 5 of the First Schedule – Part 1 of the Resource Management Act 1991

Hutt City Council has prepared:

PROPOSED DISTRICT PLAN CHANGE 17 – 11 SEDDON STREET, NAENAE REZONING TO GENERAL RESIDENTIAL ACTIVITY AREA

Proposed Plan Change 17 seeks to rezone the Council owned land at 11 Seddon Street (being part of Part Lot 1 DP 33067, CT WN21D/849) to General Residential Activity Area. It is currently zoned General Recreation Activity Area and comprises the former custodian's house and grounds at Naenae Park.

The proposed rezoning of the parcel of land to General Residential Activity Area reflects its historic and current usage and will enable its continued use for residential purposes. It will also ensure that any future development that might occur on the site is of a nature and scale that reflects the surrounding residential environment.

Documentation for Proposed Plan Change 17 can be inspected at:

- All Hutt City Council Libraries; and
- Customer Services Counter, Council Administration Building, 30 Laings Road, Lower Hutt.

Alternatively, copies of the documentation are available on the Council website:

- <http://www.huttcity.govt.nz/Your-Council/Plans-and-publications/District-Plan/District-Plan-changes/>

Copies can also be requested by contacting Hutt City Council:

- Phone: (04) 570 6666 or
- Email: district.plan@huttcity.govt.nz

If you have any questions please contact Chloe Smith on phone 04 570 6996 or email: chloe.smith@huttcity.govt.nz

Submissions close on FRIDAY 13 MAY 2011 at 5.00pm

Any person may make a submission on Proposed Plan Changes 17-19. You may do so by sending a written submission to Council:

- Post: Environmental Policy Division, Hutt City Council, Private Bag 31912, Lower Hutt 5040;
- Deliver: Council Administration Building, 30 Laings Road, Lower Hutt;
- Fax: (04) 566 6799;
- Email: district.plan@huttcity.govt.nz

The submission must be written in accordance with RMA Form 5 and must state whether or not you wish to be heard in respect of your submission. Copies of Form 5 are available from all of the above locations and the Council website.

The process for public participation in the consideration of this proposal under the Act is as follows:

- after the closing date for submissions, Hutt City Council must prepare a summary of the submissions and this summary must be publicly notified; and
- there must be an opportunity to make a further submission in support of, or in opposition to, the submissions already made; and
- if a person making a submission asks to be heard in support of his or her submission, a hearing must be held; and
- Hutt City Council must give its decision on the proposal (including its reasons for accepting or rejecting submissions); and
- any person who has made a submission has the right to appeal the decisions on the proposal to the Environment Court.

Part 4: Section 32 Evaluation

1. INTRODUCTION

Before a Proposed District Plan change is publicly notified the Council is required under section 32 of the Resource Management Act 1991 (the RMA) to carry out an evaluation of the proposed change and prepare a report. As prescribed in section 32 of the Act:

An evaluation must examine:

- a) the extent to which each objective is the most appropriate way to achieve the purpose of the Act; and*
- b) whether, having regard to their efficiency and effectiveness, the policies, rules, or other methods are the most appropriate for achieving the objectives.*

An evaluation must also take into account:

- a) the benefits and costs of policies, rules, or other methods; and*
- c) the risk of acting or not acting if there is uncertain or insufficient information about the subject matter of the policies, rules or other methods.*

Benefits and costs are defined as including benefits and costs of any kind, whether monetary or non-monetary.

A report must be prepared summarising the evaluation and giving reasons for the evaluation. The report must be available for public inspection at the time the proposed plan change is publicly notified.

At the current time Council is considering the release of a number of properties for sale which are adjacent to city parks. Each of these properties, including the one which is subject to this Section 32 report, includes a house which has in the past been used by the custodian of the adjacent park or by Council staff. The Section 32 report focuses on the appropriateness of the proposal to rezone the property (11 Seddon Street) in the City of Lower Hutt District Plan. It does not address the subsequent issue concerning the sale of publicly owned land as this is not a relevant matter for consideration under the RMA.

2. BACKGROUND TO THE PROPOSED PLAN CHANGES

Since 2007 the Council has been undertaking a review of the land it holds in fee simple title throughout the city. The objective of the review is to ensure all Council owned land is being used for the most appropriate purpose, based on an assessment of the local and city-wide open space contribution that each site makes.

A Council sub-committee subsequently considers the assessment undertaken and makes a recommendation on the future of each site – to either retain the land under the Reserves Act or consider releasing it for sale. This recommendation is then publicly notified, as required under the Local Government Act, and public submissions called for. After considering the submissions received the Council makes a decision on the future of the site.

The future of the site located at 11 Seddon Street was considered by Council on 15 December 2009, with the Council passing the following resolutions:

RESOLVED: Minute No. C 090624(2)

“That Council recommends to the Minister of Conservation that:

- i. the Recreation Reserve status of an area of approximately 1000 m², being part of Part Lot 1 DP 33067, situated at 11 Seddon Street Naenae, being the former Naenae Park custodian’s house and grounds be revoked to enable the property to be sold and the proceeds to be transferred to the Council’s Reserves Purchase and Development Account for the improvement, development or purchase of other reserves in accordance with its reserves’ strategy; ”*

Following the adoption of this resolution Council sought the consent of the Minister of Conservation, under s24 of the Reserves Act, to revoke the recreation reserve status over 11 Seddon Street. Ministerial consent was confirmed for the Seddon Street site by the Department on 10 May 2010.

3. DESCRIPTION OF THE LAND

Historic context:

The site is currently part of the Certificate of Title held for Naenae Park (WN21D/849). The park was originally part of a larger area of land held by the Crown for state housing purposes, but in 1962 was set apart from this larger holding and vested in the Mayor, Councillors and citizens of the City of Lower Hutt as a reserve for recreational purposes under the Reserves and Domains Act 1953.

Site description:

The site is zoned General Recreation Activity Area and is situated off Seddon Street, at the western end of Naenae Park behind the Naenae Kindergarten. It comprises an unsurveyed area of land of approximately 1,000 m² within Part Lot 1 DP 33067, Certificate of Title WN21D/849, which is the area currently fenced and/or developed for residential purposes. Although not actively managed as reserve, the subject area is covered by the Sportsground Reserves and Bush Reserves Management Plans applicable to Naenae Park.

The site is a flat, grassed area that contains a dwelling and two small ancillary buildings. The dwelling and grounds are physically separated from the rest of Naenae Park by a mature, curved line hedge of trees to the east and a fence along the southern boundary. The balance of the perimeter boundaries are either fenced or planted with trees and shrubs.

The dwelling was originally constructed for the purpose of housing an on-site custodian. With the advent of changes in work practices and parks maintenance operations the dwelling is no longer required for this purpose and has been privately tenanted for some years.

Figure 1: 11 Seddon Street

As the site is a rear section, access is provided via an accessway off Seddon Street. A radio transmitter operated by Broadcast Communications Limited is located on the southern boundary of the accessway adjacent to the Naenae Kindergarten site. The operation of this transmitter is currently covered by existing use rights and a licensing agreement with the Council.

Figure 2: Access to 11 Seddon Street

The adjacent area to the north and east of the site is within the General Recreation Activity Area and consists of sports grounds and facilities associated with Naenae Park. The wider surrounding properties, including the Naenae Kindergarten, are within the General Residential Activity Area and are predominantly used for residential purposes.

The current District Plan Map (E4) is attached at Appendix 1.

4. ENVIRONMENTAL EFFECTS

The subject site is located within an existing, predominantly General Residential Activity Area neighbourhood, and the associated dwelling has been used for residential purposes since its construction. Consequently, re-zoning this property from General Recreation Activity Area to General Residential Activity Area would reflect its historic usage, align well with the surrounding land use context and continue to promote the efficient use of existing utilities and roading infrastructure.

Landscape and Visual Amenity:

Effects on landscape and visual amenity values associated with the site would not occur as a consequence of their proposed re-zoning. The site is already developed for residential purposes and no vegetation clearance is proposed. The Proposed Plan Change is seeking to alter the current zoning of the site to General Residential Activity Area to fit in with the existing and long standing use of the site.

Residential Amenity:

The properties in the vicinity of the site are predominantly residential in nature and are within the General Residential Activity Area. Given that the historic use and development associated with the subject site is residential in character, the inclusion of this site in the General Residential Activity Area would act to maintain and enhance the residential amenity of the area in which it is located.

By being included within the General Residential Activity Area any proposed future development of the site would be subject to the same District Plan requirements applicable to the surrounding residential properties. This would include, in the event that any future subdivision of the site were proposed, demonstration that the minimum lot size requirements of 400 m² per site, can be met (refer Chapter 11 (Subdivision) of the District Plan). Any such proposal would require a resource consent to be obtained, and would be subject to the relevant conditions and standards set out in the District Plan.

Recreation and Open Space:

Although the site is included within an existing recreation reserve it has historically been used for custodial and/or staff housing purposes. Consequently, public access to this site has been on a restricted basis, with the result being that it has been divorced from the range of recreation and open space opportunities and facilities generally available to users of Naenae Park.

In addition, reserve management practices have evolved to the point where maintenance operations that had formerly been carried out by on-site custodians employed by the Council are now either delivered by in-house operational teams or contracted out. Such changes in practice have meant the need for on-site provision of custodial housing is no

longer required, as evidenced by the fact that the existing dwellings on the subject site has been rented out to private tenants for some time.

Consequently, it is considered that re-zoning this site for residential purposes will not affect the ongoing care of Naenae Park, nor will it affect the public use and enjoyment of the area.

Ecology:

The re-zoning of the site will not have an effect on the ecology of the area within which it is located as it is highly modified and no ecological attributes specific to the site have been identified in the District Plan.

Infrastructure:

This site is serviced with existing connections to power, phone, stormwater, wastewater, water supply and the local roading network. Consequently, the re-zoning of the site would not, in itself, result in additional demand being exerted on existing infrastructure capacity. This would, however, need to be further considered in the event that more intensive redevelopment of the sites was proposed.

Council engaged Capacity Limited to outline any impact the proposed re-zoning may have on the existing water supply, wastewater and stormwater infrastructure. The report indicates that there is existing wastewater infrastructure located along the boundary of 11 Seddon Street. The maintenance of this asset should be considered if the site is sold and consideration should be given to the creation of an easement to allow for future maintenance. Any future development on the site should take into consideration the location of the existing wastewater infrastructure.

Appendix 2 contains the full report and a map of the existing infrastructure.

5. POLICY ANALYSIS

5.1 Resource Management Act 1991

Proposed Plan Change 17 is considered to be in keeping with the purpose of the RMA, in that it promotes the sustainable management of natural and physical resources. There are no identifiable matters of national importance (section 6) applicable to the proposed change. Four of the *Other matters* that section 7 directs Council to have particular regard to in achieving the purpose of the Act, are considered to be of particular relevance. These are:

7(b) The efficient use and development of natural and physical resources

7(c) The maintenance and enhancement of amenity values

7(f) Maintenance and enhancement of the quality of the environment

7(g) Any finite characteristics of natural and physical resources

The proposed change is considered to be an efficient use of the City's land resource as the sites are no longer required for recreational purposes. The application of the General Residential Activity Area provisions to the land will maintain the amenity values of the

surrounding properties and the quality of the residential environment in which the sites are located.

With respect to section 8, the principles of the Treaty of Waitangi have been taken into account. Local iwi were consulted on this proposal as part of the Council's land review process and have been included in the initial pre-consultation phase of this plan change as outlined further in section 6.1 of this report. A preliminary response from the Port Nicholson Block Settlement Trust (PNBST) indicated support for this plan change.

5.2 Regional Policy Statement for the Wellington Region (Operative)

The Regional Policy Statement for the Wellington Region (RPS) provides the regional policy framework for managing the environment and providing for growth and its effects.

The RPS identifies the significant resource management issues for the region and outlines the policies and methods required to achieve integrated management of the region's natural and physical resources.

The Built Environment and Transportation chapter of the RPS is considered to be most relevant to the Proposed Plan Changes, with the objectives and policies of particular relevance being:

- Objective 1* *Urban areas, the built environment and transportation systems are developed so that they, and their associated activities, use resources efficiently and demand for the use of finite resources is moderated.*
- Objective 2* *The adverse environmental effects that result from the use of urban areas, transportation systems and infrastructure are avoided, remedied or mitigated and, in particular, any effects that result from the concentration and scale of activities in urban areas are recognised and provided for.*
- Objective 3* *The environmental quality of urban areas is maintained and enhanced.*
- Policy 2* *To use natural and physical resources efficiently in the development of urban areas and in use of the built environment by:*
- (1) Encouraging forms of urban development that reflect efficient use of resources; and*
- (2) Avoiding, where practicable, the use of new resources, particularly non-renewable resources.*
- Policy 6* *To promote the provision and efficient use of infrastructure in the Region, and the reduction of adverse environmental effects from its use.*

The proposed change is considered to give effect to the RPS, particularly the provisions referred to above. The site is proposed to be re-zoned General Residential Activity Area within the existing urban boundaries of the City of Lower Hutt and have been used for residential purposes for some time. Therefore its ongoing residential use would be consistent with the efficient use of land and the infrastructure that already service the area in which the site is located.

5.3 Proposed Greater Wellington Regional Policy Statement

Greater Wellington Regional Council has recently undertaken a review of the RPS, resulting in the notification of the Proposed Regional Policy Statement in 2009 (the Proposed RPS).

The Chapter of most relevance to Proposed Plan Change 17 is *Chapter 3.9 Regional form, design and function*. The objective of this chapter (Objective 21) seeks *a compact, well designed and sustainable regional form that has an integrated, safe and responsive transport network and: ... (d) urban development in existing urban areas, or when beyond urban areas, development that reinforces the region's existing urban form; (e) strategically planned rural development; (f) a range of housing (including affordable housing); (h) integrated land use and transportation ...and (j) efficient use of existing infrastructure (including transport network infrastructure).*

Proposed Plan Change 17 is considered to give effect to the Proposed RPS. In particular it will help to reinforce a compact regional form that integrates with the transport network, and encourage efficient use of existing infrastructure, including existing utilities and roads.

5.4 The Wellington Regional Strategy

The Wellington Regional Strategy (WRS) is a sustainable growth strategy that has been developed by greater Wellington's 9 local authorities, in conjunction with central government and the region's business, education, research and voluntary sector interests. The WRS lists 3 focus areas for sustainable growth, these being; leadership and partnerships, growth of the region's economy and good regional form.

The WRS does not specifically address the type of rezoning that is sought by this Proposed Plan Change, however it is not inconsistent with it.

5.5 Consistency with surrounding District Plans

Section 74(2)(c) of the RMA requires Council to consider the extent to which this Proposed Plan Change needs to be consistent with the plans or proposed plans of adjacent territorial authorities.

Proposed Plan Change 17 covers one small parcel of land well within the jurisdictional boundary of the City of Lower Hutt. Consequently, it will have no affect on the plans or proposed plans of adjacent territorial authorities and will not be inconsistent with them.

5.6 Other Strategies and Plans

The Hutt City Council has relevant strategies and plans that detail the priorities for the city, namely:

- Economic Development Strategy 2009
- Environmental Sustainability Strategy 2009
- Reserves Policy 2004
- Reserves Strategic Directions Strategy 2003
- Reserve Land Acquisition and Disposal: Policy and Guidelines

- Long Term Council Community Plan (LTCCP) 2009

This Plan Change has taken these into consideration and is aligned with them.

5.7 Area-Wide Objectives of the District Plan

The Area Wide objectives in Chapter 1.10 of the District Plan that are of particular relevance to Proposed Plan Change 17 are as follows:

*Objective 1.10.2
Amenity Values* *To identify, maintain and enhance the character and amenity values of the different activity areas.*

*Objective 1.10.3
Residential Activity* *To accommodate residential growth and development through consolidation of the existing urban area but to allow some peripheral development.*

*Objective 1.10.6
Recreation and Open Space* *To provide and maintain a diverse range of open space and recreation facilities for the enjoyment of residents and visitors which meet the needs of different sectors of the community.*

In considering these objectives, the proposed re-zoning of this site to General Residential Activity Area is consistent with their intent for the following reasons:

- It will formalise the existing and long established use of the site for residential purposes, while maintaining the character and amenity values of the surrounding General Residential Activity Area. The latter would be achieved through recognition that the current use and development relating to these sites contributes to the character and amenity of the areas in which they are located, and that any future development would need to comply with the relevant residential provisions in the District Plan.
- Although the site is currently included within Naenae Park, it has never been used for recreational or open space purposes. Consequently, its re-zoning will not impede the future use and enjoyment of Naenae Park as the current range of sports grounds and facilities available at the park will continue to be accessible to users.
- The proceeds of any sale of the site will, in accordance with Council's Reserve Strategy, be used for the purposes of improving, developing or purchasing other reserves in the City.

5.8 General Residential Activity Area Objectives

The General Residential Activity Area objectives in Chapter 4A.1 of the District Plan that are of particular relevance to Proposed Plan Change 17 are as follows:

*Objective 4A 1.1.1
Residential Character and Amenity Values* *To maintain and enhance the amenity values and residential character of the General Residential Activity Area of the City.*

*Objective 4A 1.2.1
Building Height, Scale, Intensity and Location* *To avoid, remedy or mitigate adverse effects caused by building height, intensity and location on the amenity values of adjacent residential sites and the residential character of the surrounding residential area.*

In considering these objectives, the proposed re-zoning of these sites to General Residential Activity Area is consistent with their intent. In particular it will ensure that any future development that might occur on the site is appropriately addressed, and that the amenity values and residential character associated with the surrounding area will continue to be maintained in line with current District Plan requirements.

6. CONSULTATION

Consultation with local groups and organisations, residents and other parties who may be affected by the decision to re-zone the site identified in Proposed Plan Change 17 has already been undertaken. The consultation was initiated in accordance with Local Government Act requirements relating to the disposal of parks and reserves, and was additional to the statutory processes required under Schedule 1 of the RMA.

The consultation undertaken (as part of a suite of proposals consulted on in the Eastern Ward) involved the following:

Formal consultation was carried out over the period 21 July 2009 to 1 September 2009. This included the following actions:

- Formal advertisement in the Hutt News of 21 July 2009 regarding possible disposal of park lands and inviting public submissions.
- Letter and reports sent to relevant iwi groups identified as having a possible interest in the proposals.
- Letter and report sent to tenants of land identified for possible disposal.
- Information posted on the Council's website.

A total of 3 submissions were received on the proposal to dispose of this site. All submissions were in support, 2 of which further sought first right of refusal to acquire/right to negotiate a transfer of the properties should they be declared surplus.

6.1 Consultation in accordance with the First Schedule of the RMA 1991

In accordance with Clause 1 of Schedule 1 of the Resource Management Act 1991 the following statutory authorities have been consulted prior to notification of the proposed plan change:

- Ministry for the Environment
- Te Runanganui o Taranaki Whanui ki te Upoko o te Ika a Maui
- Wellington Tenth Trust
- The Palmerston North Maori Reserve Trust
- The Port Nicholson Block Settlement Trust

7. EVALUATION OF OPTIONS

7.1 Introduction

The Proposed Plan Change seeks to amend the District Plan by re-zoning the site located at 11 Seddon Street from General Recreation Activity Area to General Residential Activity Area.

The General Residential Activity Area applies to most of the areas in the City that are predominantly used for residential purposes. It is characterised by low to medium density residential development consisting of single or double storey dwelling houses, open space and an absence of large scale commercial or industrial activities. It is the primary residential zoning across the valley floor and Western Hills.

As noted previously, the Council’s decision to sell publicly owned land is not a relevant matter for consideration in terms of the RMA or the assessment undertaken in accordance with section 32 of the Act. Accordingly, the specific zoning options considered below are based on the premise that it is the intention of the Council to declare the land surplus (to be used for residential purposes) subject to the outcome of the plan change process.

7.2 Alternatives

The range of options that have been considered in preparing Proposed Plan Change 17 are discussed below.

Three options have been identified and considered for this site. They are as follows:

- Status quo – Retain the site as General Recreation Activity Area
- Retain the site as General Recreation Activity Area and convert the dwelling to a community facility
- Re-zone the site General Residential Activity Area
-

OPTION	EVALUATION
<p>Option 1: Status Quo – Retain site as General Recreation Activity Area</p> <p>NOT RECOMMENDED</p>	<p>Benefits:</p> <ul style="list-style-type: none"> • Avoids the cost associated with a plan change process • Retains the potential for the site to be used for future recreational activities <p>Costs:</p> <ul style="list-style-type: none"> • Fails to recognise the historic and contemporary use of the site for residential purposes, and that it is no longer required for the purpose for which it was initially used and developed (i.e. custodial housing associated with Naenae Park) • Public access will continue to be restricted by the current use of the site and there is neither a demonstrated need nor any Council plans to use it for future recreational purposes • Provides for future use and development that could diminish the existing residential character and amenity of the site (e.g. public toilets, changing sheds, club rooms)

	<ul style="list-style-type: none"> Requires a resource consent to be sought for any future use or development of the site that is non-recreational in nature
<p>Option 2: Retain site as General Recreation Activity Area and convert dwelling to a community facility</p> <p>NOT RECOMMENDED</p>	<p>Benefits:</p> <ul style="list-style-type: none"> Avoids the cost associated with a plan change process Provides for the continued use of the site for public/community versus private purposes <p>Costs:</p> <ul style="list-style-type: none"> Fails to recognise the historic and contemporary use of the site for residential purposes There is neither a demonstrated need nor any Council plans to establish a community facility in the locality Restricts the nature of activities which can take place on the balance of the site to those that are recreational in nature Requires a resource consent (as a discretionary activity) to be sought to convert the use of the dwelling to a community facility
<p>Option 3: Re-zone site General Residential Activity Area</p> <p>RECOMMENDED</p>	<p>Benefits:</p> <ul style="list-style-type: none"> Recognises the historic and contemporary use of the site for residential purposes, and that it is no longer required for the purpose for which it was initially used and developed (i.e. custodial housing associated with Naenae Park) Retains the existing residential character and amenity of the site and the contribution it makes to the surrounding residential area Promotes efficient use of reticulated on-site services Provides for an efficient use of land that Council (as the owner) has no further use or alternative plans for <p>Costs:</p> <ul style="list-style-type: none"> Loss of future opportunities for the site to be used for recreational purposes Costs associated with a plan change process

Summary:

Re-zoning the property at 11 Seddon Street to General Residential Activity Area will allow the historic and existing use of the site for residential purposes to continue. It will also permit the site to be utilised in a manner that makes efficient use of existing on-site development and associated infrastructure, while ensuring that the amenity values associated with the surrounding residential area and adjacent Naenae Park are maintained.

Consequently, the re-zoning of the site to General Residential Activity Area is considered appropriate given its use, size, character and location relative to other similarly zoned land in

the vicinity. It will also ensure that any future development that might occur on the site is of a nature and scale that corresponds with the characteristics anticipated by the District Plan in an environment that is predominantly residential.

8. RISK OF ACTING OR NOT ACTING

A section 32 evaluation must also take into account the risk of acting or not acting if there is uncertain or insufficient information about the subject matter of the policies, rules, or other methods.

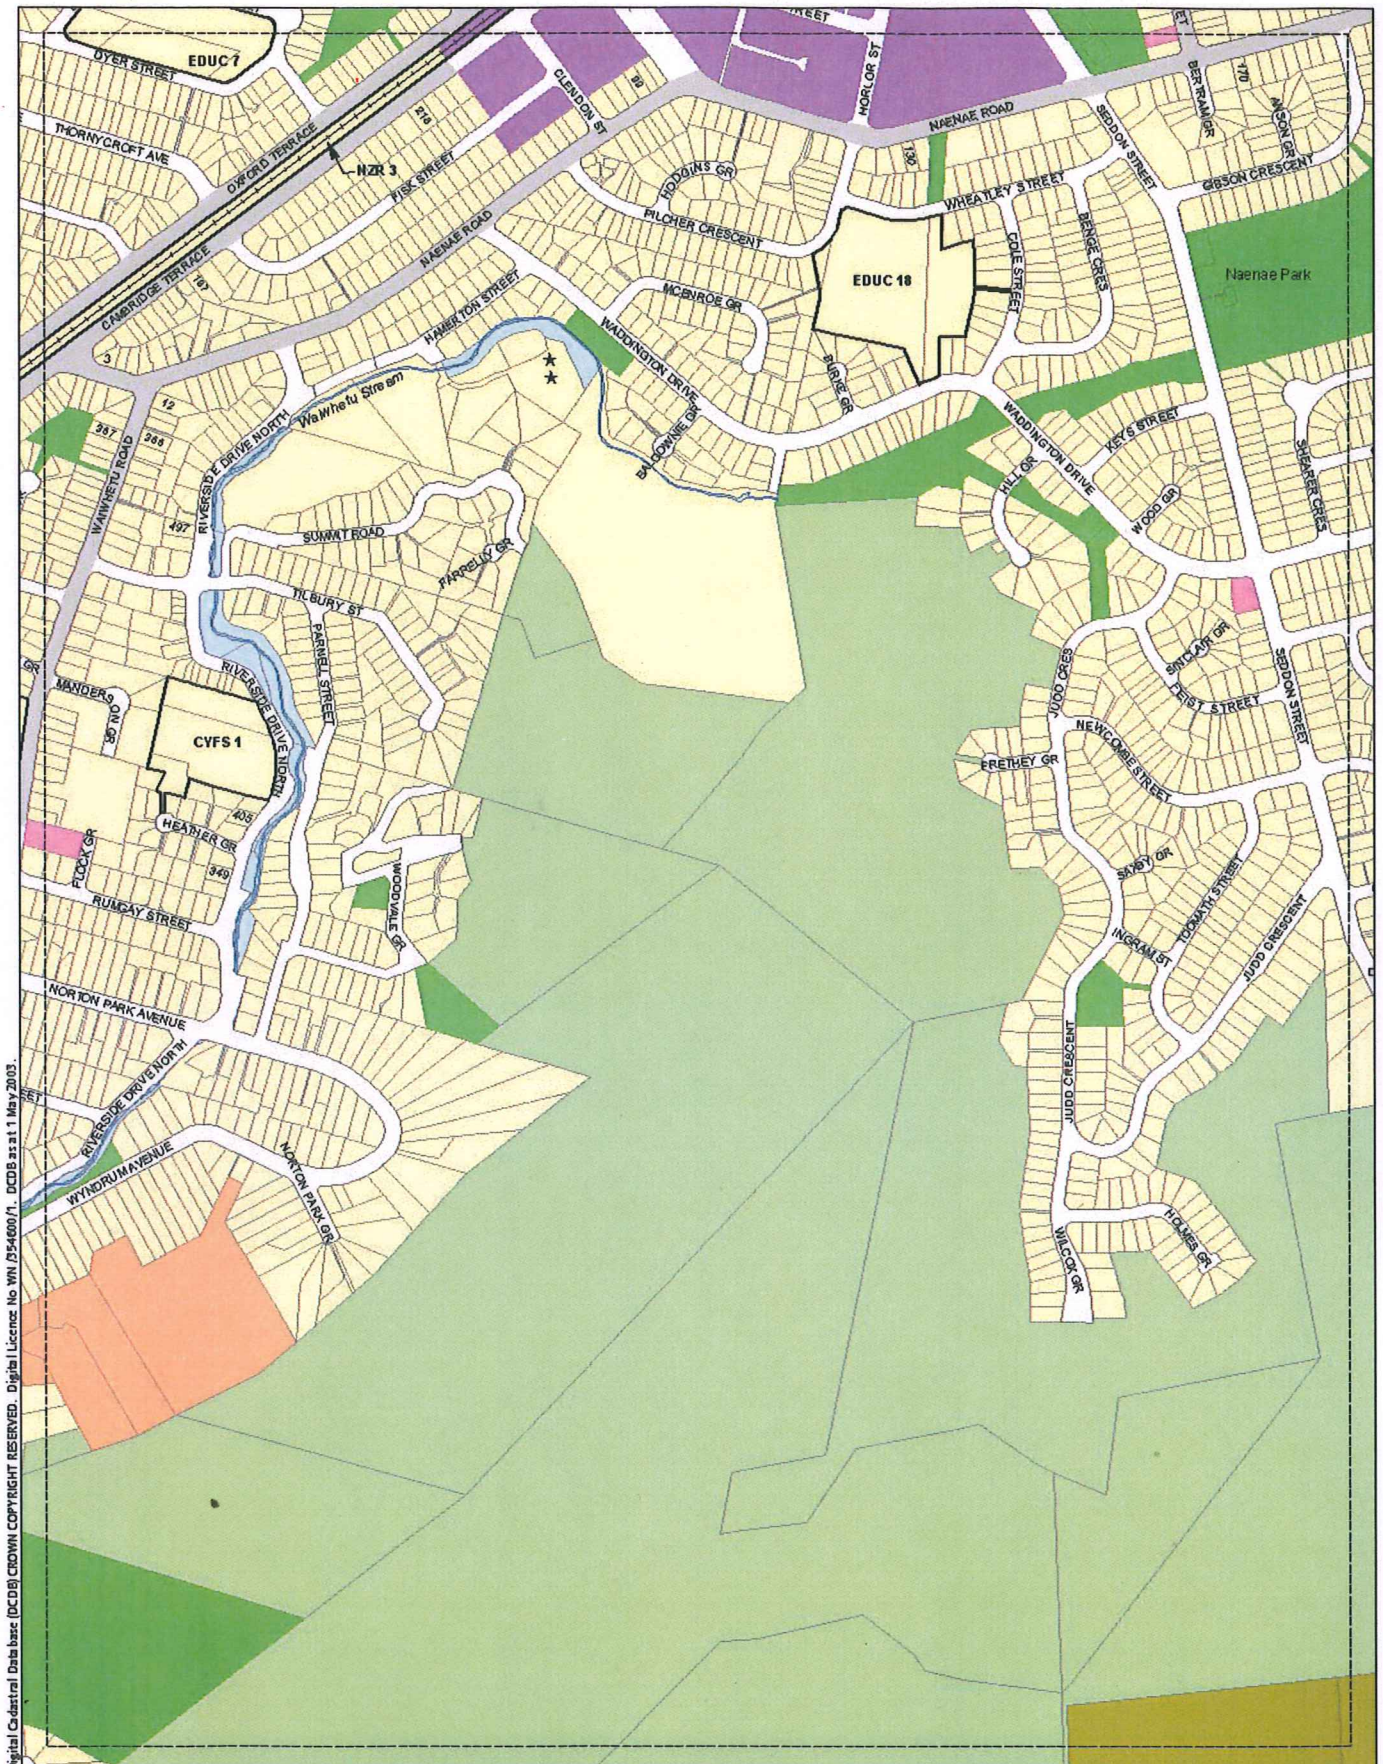

In this regard it is considered that Council has sufficient information about the subject matter of Proposed Plan Change 17 to act on this proposal.

Dear Yon

Proposed District Plan Change 16D: 11 Seddon Street, Naenae

Hutt City Council are proposing to re-zone 11 Seddon Street, Naenae (being part of Part Lot 1 DP 33067, CT WN21D/849) from *General Recreation Activity Area* in the Lower Hutt District Plan to *General Residential Activity Area*. This relates to an area of land approximately 1,000 m² in size comprising the former custodian's house and grounds at Naenae Park. The dwelling was originally constructed for the purposes of housing an on-site custodian. With the advent of changes in work practices and parks maintenance operations the dwelling is no longer required for this purpose and has been privately tenanted for some years.

We have been asked to outline any impact the proposed rezoning may have on the existing water, wastewater and stormwater infrastructure.

1 Change in Activity

Given that the former custodian's house at 11 Seddon Street is currently privately tenanted with residential activity, rezoning this area is unlikely to have significant, if any impact on the existing water, wastewater and stormwater.

There is however wastewater infrastructure located along the boundary of the proposed parcel. The maintenance of this asset should be considered if re-zoning occurs, if this parcel is sold, consideration should be given to creation of an easement to allow future maintenance. Any future development of this parcel should consider the location of this asset.

Figure 1 attached shows this area and any local water, wastewater and stormwater infrastructure.

2 Water

There is a 150 mm AC water main located in the verge on the eastern side of Seddon Street, a 40 mm GI rider main is located in the verge on the western side.

3 Wastewater

There is a 150 mm diameter RC Sewer running north along the western edge of the proposed parcel.

4 Stormwater

There is a 450 mm stormwater pipe running south in the verge along the western side of Seddon Street discharging into Waddington Canal.

The flood maps do not show any flooding in the immediate vicinity of the area proposed for re-zoning.

Yours faithfully
GHD Limited
