

# Agenda

## Community Liaison Group meeting - June 2020

### Attendees:

Alastair Meehan	Wira	Dawn McKinley
Gary O'Meara	David Smith	Trish Ranstead
Bob McWhirter	Sally-Ann Moffat	Jim S
Mayor Campbell Barry	TBC	Christine Green
Dave Dews	John Gray	Barry Green
Councillor Keri Brown	Miria O'Regan	Gabriel Tupou

**Commented [AM1]:** My apologies but the name of the woman seated next to Sally-Ann escapes me. I recall she mentioned her daughter may be interested in a future site visit (outside of work hours – possibly on a Sunday).

#	Topic to discuss	Time allocated	Notes from meeting
1	Actions from previous CLG meeting	5 min	No progress made with the investigation into CCTV onsite. Will provide further update during next meeting.
2	Discuss minutes from CLG meeting 1	5 min	Issue raised with accuracy of minutes. The following revisions were tabled: <ul style="list-style-type: none"> <li>Sally-Ann tabled 4x attachments to append</li> <li>To include commentary on the judder bars in the village – something to seek input on from HCC's roading team; and</li> <li>Include comment about Dave's availability – the fact that he is happy to be contacted whenever an issue is observed.</li> </ul> Sally-Ann to email Alastair the requested changes for inclusion.
3	Updates regarding recent site visit	5 min	Both Councillor Brown and Sally-Ann attended a site visit on 4 <sup>th</sup> June. General observation that the site looked good and that both were happy with the planting. Moved into a discussion about the conditions of consent (see below). <p>Comment that others may have liked to attend but were unable due to short notice and timing (during work hours). Agreement that we can look to schedule further visit (on a Sunday) to enable wider CLG to visit site if</p>

			desired. Date TBC
4	Conditions of consent – discussion regarding compliance	15 min	<p>Following on from the site visit discussion, Sally-Ann discussed the conditions of consent (for consent RM190050). She believes that there are 12 conditions that HCC are non-compliant with, including 6 major breaches. These included conditions relating to:</p> <ul style="list-style-type: none"> <li>• CLG meetings (Condition 5);</li> <li>• Material on the road (Condition 8);</li> <li>• Noise limits and noise monitoring (Conditions 12 and 16);</li> <li>• Informing CLG of construction works (Condition 14); and</li> <li>• Water cart remaining onsite (Condition 18).</li> </ul> <p>This point remains the subject of some disagreement, however in the interest of time I believe that we agreed the following:</p> <ul style="list-style-type: none"> <li>• That the ultimate decision about whether conditions are being complied with sits with the compliance teams at HCC and GWRC respectively. The concerns raised by Sally-Ann have been passed on to these teams, and we are happy for discussions to continue; and</li> <li>• Regardless of whether a condition is technically being complied with, the CLG are encouraged to get in touch with Dave if they are having issues. If Dave is aware of issues he can try and rectify – even if that isn't strictly something required through the consent conditions (i.e. truck reversing alarms). There will continue to be good faith attempts to address concerns.</li> </ul>
5	Overview of works undertaken onsite (+ upcoming works)	10 min	<p>Remedial planting</p> <ul style="list-style-type: none"> <li>• 4,500 native plants sourced and planted onsite – located within Stages 1 and 2;</li> <li>• Species list was directly informed by feedback during CLG meeting 1. Large specimen trees and food sources for Kereru included;</li> <li>• 3 monthly maintenance schedule to</li> </ul>

			<p>begin with. Plants previously planted in Stage 1 are establishing well – no sign of rabbits destroying the establishing plants; and</p> <ul style="list-style-type: none"> <li>Planting to continue next season. Order has been made for plants for remaining batter slopes (excluding operational areas).</li> </ul> <p>Vehicle wash</p> <ul style="list-style-type: none"> <li>On site and operational. Acknowledged that there were some teething issues during its first week of operations (requiring the road to be swept) however these should now be resolved.</li> </ul> <p>Upcoming construction works</p> <ul style="list-style-type: none"> <li>Repair of a culvert located through the Stage 2 fill area; and</li> <li>Continued construction of block wall along the western edge of the fill footprint. Gary noted the presence of the water main running parallel to Coast Road to ensure Bob is aware / doesn't bury it. Bob confirmed.</li> </ul> <p>Noise monitoring</p> <ul style="list-style-type: none"> <li>Supposed to occur within 30 days of operations commencing however was delayed due to Covid-19 restrictions;</li> <li>Darran Humpheson (noise expert at T+T) is currently arranging for suitably qualified person + calibrated equipment. Also confirming the noise monitoring procedures to ensure monitoring is representative;</li> <li>Suggestion made that monitoring should be undertaken without advance notice to best reflect noise conditions. Alastair to pass that suggestion to Darran; and</li> <li>To occur by 10 July 2020 as agreed with HCC's regulatory team.</li> </ul>
6	Volume received	2 min	<p>2,355 m<sup>3</sup> received between 1 February and 30 April. Very low volumes due to Covid-19.</p> <p>This information is tracked through a piece of software called 'Landfill 2000' and will be made available to council + CLG. Need to</p>

			package information up and ensure any commercially sensitive information removed prior.
7	Issues observed	5 min	Noise was discussed at length. General observation that there had been a noticeable improvement in noise characteristics recently and acknowledgement of Bob's efforts in this regard. Notwithstanding it remains a sensitive issue and CLG members request that operations remain aware of the potential for disruption and to continue reduce it where possible.
8	Alternative sites	2 min	<p>There are two stages associated with a site selection process:</p> <ol style="list-style-type: none"> <li>1. For HCC to decide whether it wishes to continue providing a cleanfill facility in the long-term; and</li> <li>2. If so, to undertake a site evaluation and community consultation process.</li> </ol> <p>This is underway and CLG will be provided further update at next CLG meeting. Agreed that Dave and Alastair to provide broad overview of regional initiatives in the waste minimisation space at next meeting to provide some context.</p> <p>Remain open to site suggestions. No decision has been made, but old Wingate site being looked at as a result of previous suggestion by Christine.</p>
9	Other matters	Any extra time	<p>Discussed the following:</p> <ul style="list-style-type: none"> <li>• The Mayor expressed a commitment to attend these meeting where his schedule allows;</li> <li>• Councillor Brown expressed an ongoing interest in ensuring the site ceases operation as soon as possible (no later than 19 June 2022 per consent conditions);</li> <li>• Several issues related to the roading network were raised (including on Wainuiomata Hill). These fall outside the scope of this group however individuals are encouraged to continue discussion in other forum(s);</li> <li>• Bob expressed a concern that the</li> </ul>

			<p>cleanfill was sometimes blamed for issues outside of its control – particularly relating to material on the road (from adjoining driveways and truck movements not associated with the cleanfill). He asked that members consider these possibilities and be fair when making any complaints into the future; and</p> <ul style="list-style-type: none"><li>• CLG members wanted the record to show opposition to any future cleanfill operation within Wainuiomata. Dave explained that this could not be committed to within this meeting, but that any future site would need to go through a site selection and consultation process.</li><li>• Gabriel noted that he has been receiving enquiries about the cleanfill from other interested parties. We confirmed that others are welcome to join us, and that CLG communications can be shared more widely. Please pass on as you wish.</li><li>• Next CLG meeting to be scheduled for Thursday 23<sup>rd</sup> July 2020 (6 weeks) at 7-8pm in the Wainui Library. We'll be sure to pick up the key this time!</li></ul>
