

Quarterly Wainuiomata Environmental Report for the CLG (Feb - April 2021)

Material accepted

Total material received in quarter is provided below.

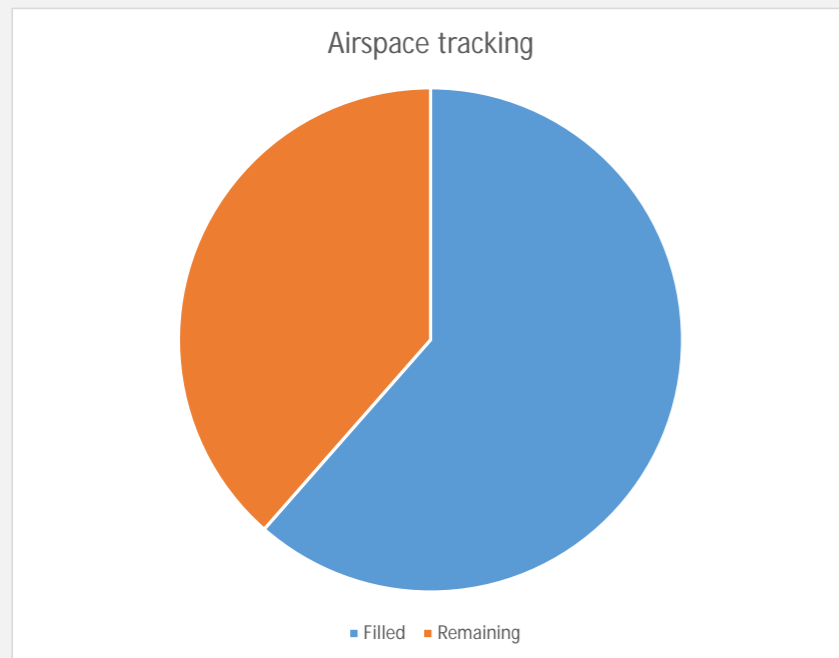

Material this quarter has been categorised almost exclusively as 'Cleanfill - Dry' with a small volume of slip material. More slip material could be expected over the winter months.

Remaining airspace

Approximately 61% full (39% airspace remaining)

Estimated closure date based on current volumes: February - March 2022 (remains subject to actual volumes received)

Monitoring effort during the quarter

Refer to individual sections for detailed information on any exceedances.

Noise monitoring

Overview

Monitoring was undertaken between 24-26 March. This report demonstrates compliance with consented noise limits.

Please refer to the monitoring report prepared by T+T for more information.

The need for ongoing management of the bulldozer has again been identified within that report. Noise should continue to lessen for nearby receivers as works move away from Coast Road.

Site works undertaken

A summary of the site works underway or recently completed is provided below.

Nature of works underway	CLG informed?	Completed?
Preparation of Stage 2 batters for planting	Yes. Email on 11 March.	Y

Site inspections

Inspections undertaken by site operator, HCC staff and / or HCC advisors (per 6.2 of the SMP) are summarised below.

Months	February	March	April
Inspections	4	3	3
Total in quarter	10		

ESCPs continue to function appropriately. No evidence of any sediment breakout has been observed, and all controls are functioning appropriately.

Planting

15,000 further plants have been ordered from local nurseries. Batters have been prepared, and planting has commenced in remainder of Stage 2.

Dust monitoring

No dust complaints received, nor observed dust nuisance beyond the site boundary.

Complaints received

Months	February	March	April
Complaints	2	2	0

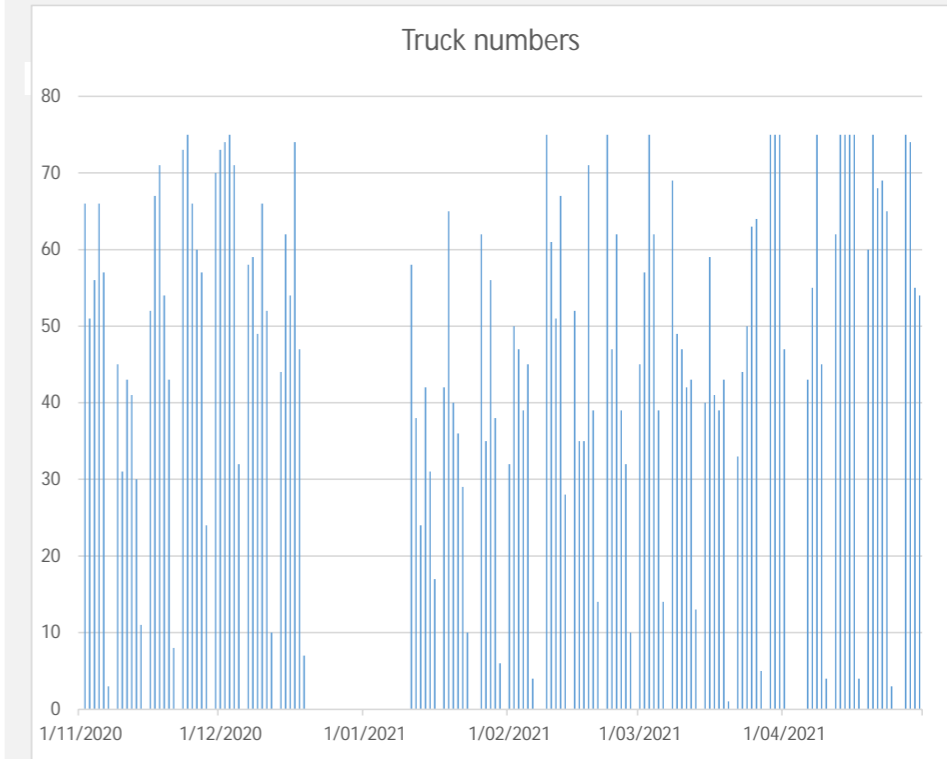

Nature of complaints received

A summary of the complaints received by the consent holder is provided below. For a complete record of complaints, including actions taken, refer to the complaints register.

Date received	Nature of complaint
29/03/2021	Dirtbikes trespassing on the cleanfill
25/03/2021	"Clanging" sound from the cleanfill at 7.37am
19/02/2021	Complaint about noise monitoring
19/02/2021	Mud on the road near Hine Road / Coast Road

Truck numbers

Daily truck numbers remain compliant (maximum of 75 per day). See summary below.

Minimum - 3 truck movements
Maximum - 75 truck movements
