

**Knowing your  
Pipes –  
Project update  
Council  
workshop  
7 April 2021**

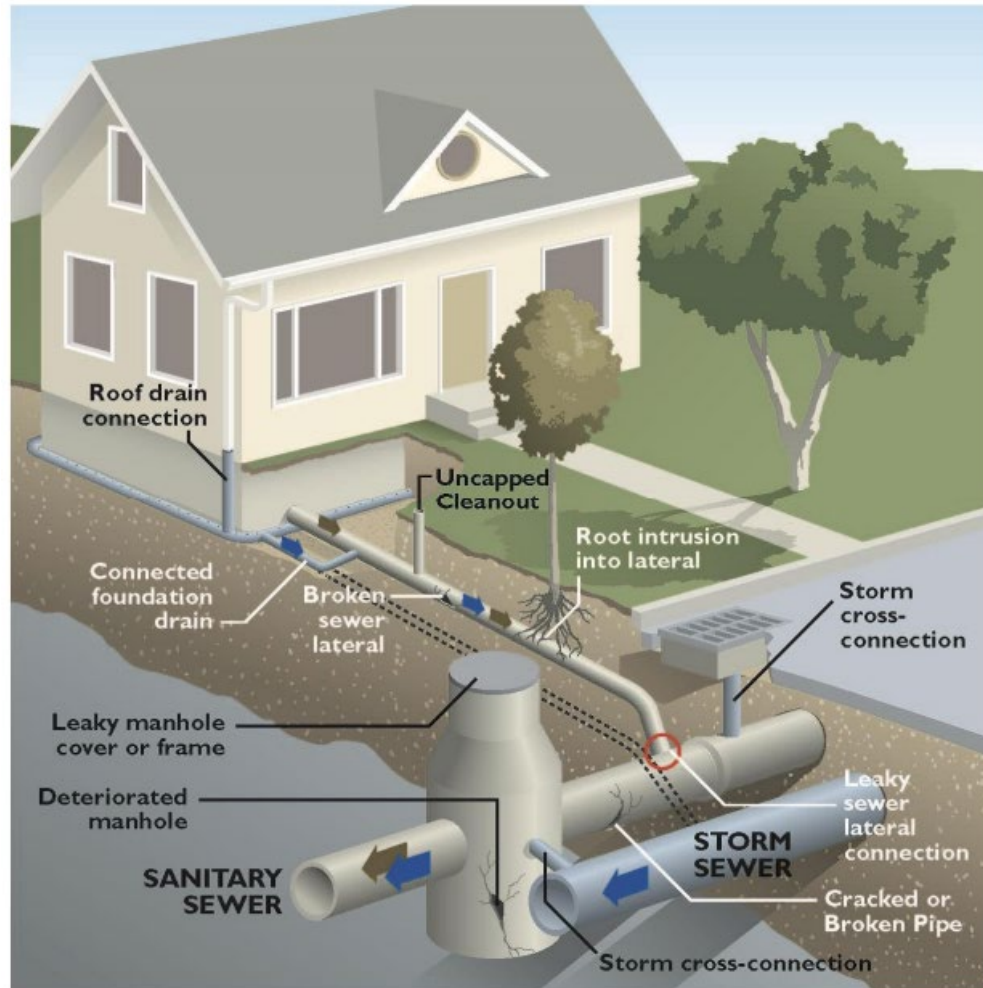

# Today's agenda

- Discharges and ownership
- Long term objective to improve waterway and ocean health
- Water quality monitoring
- Catchment selection process
- Communications
- Meet the team

# Discharges and ownership

(Source: [www.crd.bc.ca](http://www.crd.bc.ca))

# Healthy waterways

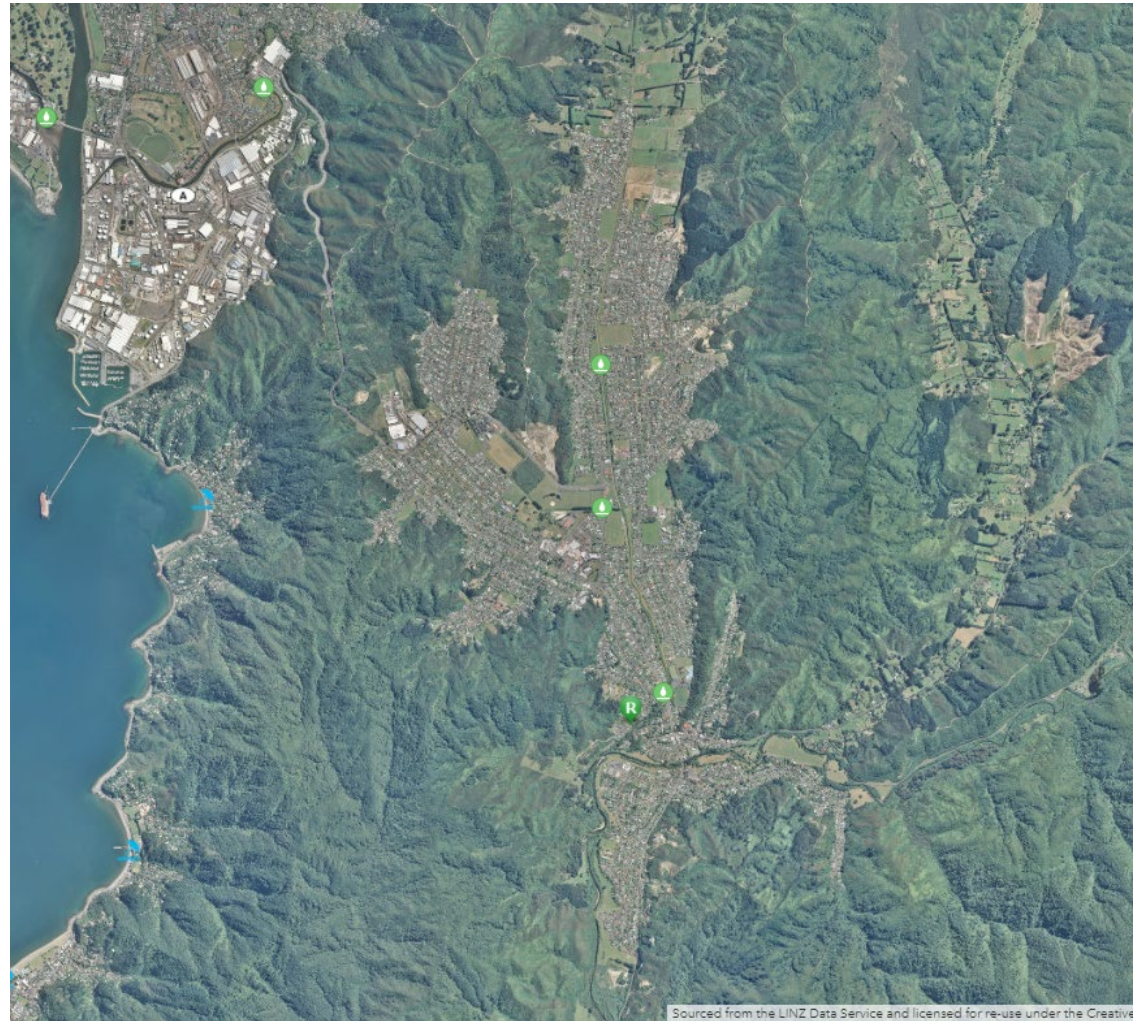

# How do we monitor?

# Catchment selection

- First target catchments are in Wainuiomata
- Why? All three monitoring sites are above the stormwater consent limit
- Where next? Other sites with high contamination

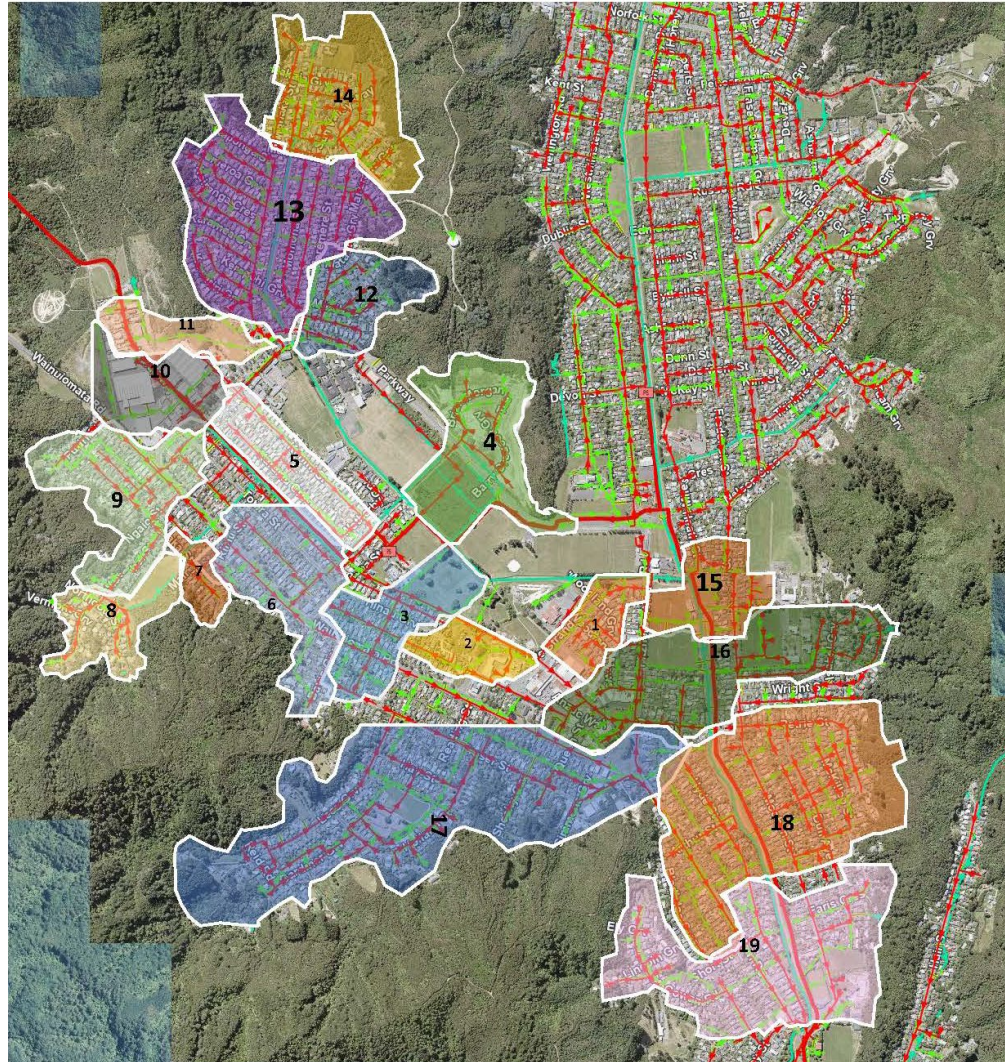

# Knowing your pipes

What is the crew going to do?

- Water quality grab sampling
- Visual inspections
- Smoke test
- Dye test
- CCTV
- Issue letters informing property owners if there are faults
- Manage the repair process

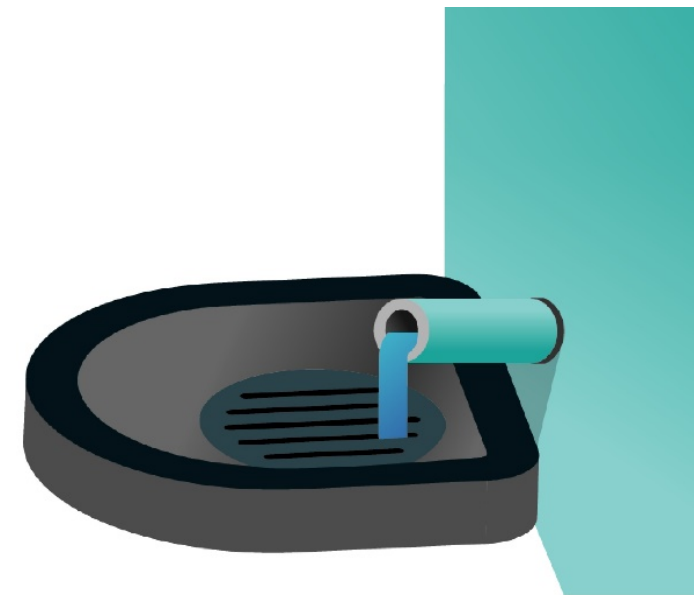

# Initial grab sample plan

# Communications

- A staged letter process has been developed
- Project site on the Wellington Water website which includes FAQs
- Targeted Facebook ads
- Advertising in the Hutt News

# Knowing your pipes team
