Slide 15 – Strategic moves 7 – Strengthen transport choices

Slide 16 – Strategic moves 8 – Create a greener and healthier city

Slide 17 – How do we implement the strategy? (Image)

Slide 18 – Question?

Discussion points

- The Spatial Plan sets out Council’s vision for the city for the next 30 years.
- Lower Hutt’s population was expected to increase by around 40,000 people over the next 30 years.
- The Spatial Plan complements the District Plan by addressing topics related to land use activities such as transport and the provision of infrastructure for three waters.

Next steps

- A report will be considered by the District Plan Review Committee on 4 July 2024 to seek approval for the general direction of the Spatial Plan before preparing a Draft Spatial Plan for community engagement.
