Submission on the Proposed Lower Hutt District Plan

This is a submission by Coral MacLennan on the Proposed Lower Hutt District Plan 2025.

1. My email address for service is coral@tekau.maori.nz
2. I could not gain an advantage in trade competition through this submission.
3. The specific provisions of the proposal to which this submission relates to, my comments on those provisions, and the decisions I seek are outlined in the table below. In addition, I seek any further, alternative, or consequential relief necessary to fully give effect to the outcomes sought in this submission.
4. I do not wish to be heard in support of this submission.

If others make a similar submission, I will not consider presenting a joint case with them at the hearing.

Comment

5. I support the inclusion of the Sites and Areas of Significance to Māori (SASM's) chapter in the proposed Lower Hutt District Plan 2025. The key issue with the current plan is that it does not include all sites and areas of significance to Māori, and this limits the plan's ability to protect these sites
6. I believe it is essential that the proposed District Plan identifies and protects sites and areas of significance to Māori, and I am pleased to see the Hutt City Council taking steps to acknowledge and safeguard these important places.

Nāku noa, nā

Coral MacLennan

Decisions Requested

| Chapter: SASM – Sites and Areas of Significance to Māori | | | |
|--|----------|---|--|
| Provision | Position | Reasons | Relief Sought |
| Whole Chapter | Support | <p>The sites and areas listed in SCHED6 have been identified with the guidance and direction of Mana Whenua. In addition to these sites, the chapter also recognises the significance of marae, waterways, and the harbour islands.</p> <p>The categories listed in SCHED6 provide an appropriate framework for determining the importance of these sites.</p> <p>We agree that the provisions of the chapter should apply to the use, development, and activities within the extent of the identified sites.</p> <p>We support the objectives, policies, rules, and standards proposed in the chapter. We believe they offer an appropriate level of recognition and protection for the SASMs, while still enabling land development and respecting the rights of landowners to develop their land as they wish.</p> | We recommend keeping the chapter as it is written. |
