**Subject:** Submission - Proposed Lower Hutt district plan 2025

- 1. This is a submission from C ns on the Proposed Lower Hutt District Plan 2025.
- 2. My email address for service is jenkins.fam@xtra.co.nz
- 3. I could not gain an advantage in trade competition through this submission.
- 4. The specific provisions of the proposal that my submission relates to, my submission on those provisions, and the decisions I seek are shown in the below table. I also seek all further, alternative, necessary, or consequential relief as may be necessary to fully achieve the relief sought in this submission.
- 5.1 do not wish to be heard in support of my submission.
- 6. If others make a similar submission, I will not consider presenting a joint case with them at the hearing.

## Introduction

My submission relates to the section on Sites and Areas of Significance to Māori

Hutt City Council sent a letter to households in significant Maori areas, but deliberately obscured what it was about, and did not clarify the impact. There had been zero consultation with affected property owners.

This is a major change, - a race-based control of resource-consenting.

I wish to make an effort to stop Hutt City Council giving Maori interests priority over my residential property.

Property rights are the fundamental principle in a Resource Management Act and above claims of culture and heritage.

I am opposed to including private land in the Sites and Areas of Significance to Maori.

I oppose restrictions on private land because of cultural significance to Maori.

I oppose empowering one group in society to set conditions and withhold approval for private development.

- 1. Why has my property and other affected property owners been 'chosen' when others in Lowry Bay have not?
- 2. What is the documented evidence for the identification of the SASM?
- 3. What is the process and cost for work greater than 200sm?

## **Decisions Requested**

#	Chapter	Provision	Position	Reasons	Relief sought
Part 2 – District wide matters	Historical and Cultural Values, Sites and Areas of Significance to Maori	SASM-P1	Support	The Hutt landscape is rich with Māori history.  It is important to Māori, and to everyone in the Hutt Valley, to have Māori heritage on the land identified, recorded and honoured.  It is understandable that Māori may also want to identify, record and honour their cultural connection to this heritage.	Keep provision
		SASM-P2	Neutral	The language of the provision "protect sites and areas listed as Nga Awa o te Takiwa from inappropriate subdivision, use, or development" is a strong statement. This could potentially make it harder to get consents re non-permitted activities in respect of these bodies of water.	
		SASM-P3	Neutral		Could replace with:  Acknowledge <u>sites</u> and areas listed as Category 1 in <u>SCHED6 – Sites</u> and Areas of Significance to <u>Māori</u> .
		SASM-P4	Oppose		Could replace with:  Acknowledge sites and areas listed as Category 2 in SCHED6 – Sites and Areas of Significance to Māori.
		SASM-P5	Support		Keep provision
		SASM-P6	Oppose	Our understanding is that the current RMA cannot be used to erode property rights – it can restrict a person's use of their land, but it cannot allow a third party access/use rights to that person's land that would not otherwise exist. So enabling tangata whenua to carry out tikanga Māori on land (by making this a permitted	Enable tangata whenua to carry out tikanga Māori (including mahinga kai) within sites and areas of significance to Māori, provided that the activity is consistent with the property rights of the landowner on which the activity takes place.

SASM-P7	Support with change	activity under SASM-R5) would not entitle Māori to trespass on private land to undertake the activity.  I think HCC intends this policy for allowing tikanga to be exercised in these sites as a permitted activity where it would otherwise require resource consent.  But recent uncertainty of law in this area suggests it would be wise to have this spelled out clearly. Hence my suggestion:  If my proposal on category 2 rules are not accepted, our rights need protection via the process for determining resource consent applications.	Encourage landowners to:  ngage with tangata whenua where subdivision,  use, or development has the potential to adversely affect sites or areas of significance to  Māori, and
		2. \	Vork with tangata whenua to manage, maintain, preserve and protect sites and areas of significance to Māori, where doing so is practicable and proportionate in the circumstances."
SASM-P9	Oppose		Add to each numbered paragraph one of the following:  to the extent to which it is reasonable for the proposal to respond to or incorporate the outcomes of that consultation.  the extent to which it is reasonable to expect the proposal to reflect those values in private property.  . to the extent relevant to private property.
SASM- R1	Support in part	Needs clarification to indicate no intention to provide rights over land owners to tikanga Māori on private land.	Agree, with following change:  Undertaking tikanga Māori within a public Site or Area of Significance to Māori, or private land with approval of the owner.
SASM- R2	Neutral	I support support the accidental discovery protocol requirement for category 2.  I am in favour of providing for protection of SASM in this manner – ensuring recovery - even on private land. But this is all the protection that is needed. Get rid of all the additional rules about restricting new buildings/alterations/additions.	
SASM- R3	Support		Keep provision
SASM- R4	Oppose	Adding resource consent requirements for building on private land will tie landowners up with consultation with tangata whenua, limits their property rights, limits commercial development and housing supply.  I understand the application of these rules on category 1 significance, but application on	Separate Category 2 and replace all wording with: Activity Status: Permitted
CACM	Sugar	category 2 goes beyond what most people think reasonable.  There is no demonstrated need to restrict building/development in category 2 areas.	Variable
SASM- R5	Support		Keep provision
SASM- S1	Support	In the interests of supporting Maori heritage and cultural values, it is reasonable for archaeological monitoring and collection to start if artefacts are found.	Keep provision
