

## OSZ — Open Space Zone

The Open Space Zone predominantly covers smaller parks within the urban area of Lower Hutt. It also covers other open space areas with limited facilities, buildings and structures.

The zone often applies to public land where recreation activities are typically informal, such as local parks and playgrounds, as well as other open space areas where further development would be inappropriate, including some areas with elevated levels of natural hazard risk.

Areas within the zone typically have a low level of built development, with buildings and structures being those necessary to provide for and support recreation and community activities within the zone, including playgrounds, community facilities, and maintenance and equipment sheds.

In providing for recreation and community facilities, sites in the Open Space Zone play a key role in supporting growth and a well-functioning urban environment.

While this chapter includes the core objectives, policies, and rules that apply to the Open Space Zone, other district-wide chapters of the District Plan, including those that apply overlays across specified areas, set additional objectives, policies and rules for all or part of the zone. As such, this chapter should be read alongside the district-wide chapters of the District Plan.

### OSZ-PREC1 — Hutt River Mouth Stabilisation Precinct

The Hutt River Mouth Stabilisation Precinct identifies an area at the mouth of the Hutt River that has a history of being used for activities associated with the stabilisation of the Hutt River mouth, including river protection works and stockpiling of material extracted from the Hutt River.

This chapter includes specific objectives, policies and rules for the precinct. These objectives, policies and rules include notes that clarify whether they are in addition to or replace other objectives, policies and rules for the Open Space Zone.

### Objectives

OSZ-O1	Purpose and character of the zone
The Open Space Zone consists of open space, recreation areas where recreation activities are typically informal, such as local parks and playgrounds.	
OSZ-O2	Activities in the Open Space Zone
<p>The Open Space Zone:</p> <ol style="list-style-type: none"> <li>Predominantly provides for recreation activities and community facilities that are compatible with the planned character and amenity of adjoining Residential Zones, the Mixed Use Zone, and the Marae Zone.</li> <li>Provides for other activities that: <ol style="list-style-type: none"> <li>Are compatible with the purpose and planned character of the zone,</li> <li>Are compatible with the planned character and amenity of adjoining Residential Zones, the Mixed Use Zone, and the Marae Zone, and</li> <li>Are compatible with residential activities and use of community facilities within the zone.</li> </ol> </li> </ol>	
OSZ-O3	Built character
<p>The Open Space Zone includes a low level of built development that:</p> <ol style="list-style-type: none"> <li>Retains open space areas suitable for informal, outdoor recreation, such as local parks and playgrounds,</li> <li>Either provides for recreation activities and community facilities or is compatible with the provision of recreation activities and community facilities within the zone, and</li> <li>Is compatible with the planned character and amenity of adjoining Residential Zones, the Mixed Use Zone, and the Marae Zone.</li> </ol> <p>This includes buildings that accommodate community facilities, public toilets, equipment sheds and maintenance buildings.</p>	
OSZ-O4	Adverse effects
Adverse effects of activities and development are effectively managed within the zone, and at interfaces with Residential Zones, the Mixed Use Zone, and the Marae Zone.	

### Objectives — Hutt River Mouth Stabilisation Precinct

<b>OSZ-PREC1-O1</b>	<b>Purpose, character and activities of the Hutt River Mouth Stabilisation Precinct</b>
<i>This objective is in additional within the Hutt River Mouth Stabilisation Precinct.</i>	
The Hutt Park Stabilisation Precinct provides for activities ancillary to the maintenance and stabilisation of the mouth of the Hutt River whilst maintaining the character and amenity of the precinct and the surrounding area, including the coastal marine area.	

## Policies

<b>OSZ-P1</b>	<b>Predominant activities</b>
Enable recreation activities and community facilities as the predominant activities within the Open Space Zone where they are compatible with the planned character of the zone and the planned character and amenity of the adjoining Residential, the Mixed Use Zone, and the Marae Zone.	
<b>OSZ-P2</b>	<b>Compatible activities</b>
<ol style="list-style-type: none"> <li>Provide for activities in the Open Space Zone that: <ol style="list-style-type: none"> <li>Support the recreation activities and community facilities within the zone or enhance the amenity of the site,</li> <li>Are compatible with the character of adjoining Residential Zones, the Mixed Use Zone, and the Marae Zone, including through managing the effects of new built development and noise-generating activities, and</li> <li>Have a functional need or operational need to be in that location.</li> </ol> </li> <li>Potentially compatible activities include commercial activities, including retail activities, associated with recreation and community facilities on the site.</li> </ol>	
<b>OSZ-P3</b>	<b>Potentially incompatible activities</b>
<ol style="list-style-type: none"> <li>Only allow potentially incompatible activities in the Open Space Zone where they: <ol style="list-style-type: none"> <li>Maintain or enhance the amenity values of the zone,</li> <li>Do not limit or constrain the provision of recreation activities and community facilities, and</li> <li>Are compatible with the planned character of adjoining Residential Zones, the Mixed Use Zone, and the Marae Zone, including through managing the effects of built development, noise-generating activities and outdoor storage and carparking areas.</li> </ol> </li> <li>Potentially incompatible activities include, but are not limited to: <ol style="list-style-type: none"> <li>Rural activities,</li> <li>Industrial activities, and</li> <li>Other activities, including retail activities, that do not support recreation activities and community facilities with the zone.</li> </ol> </li> </ol>	
<b>OSZ-P4</b>	<b>Built development</b>
<p>Built development in the Open Space Zone is managed to:</p> <ol style="list-style-type: none"> <li>Maintain or enhance the provision of recreation activities and community facilities within the zone, including the provision of informal, outdoor recreation,</li> <li>Maintain public access, unless it is necessary to restrict public access to protect of sensitive indigenous habitats, the health or safety of people, sensitive cultural and historic heritage values, or the integrity and security of regionally significant infrastructure, and</li> <li>Ensure adequate privacy and access to daylight for residential activities and other sensitive activities on adjacent sites.</li> </ol>	
<b>OSZ-P5</b>	<b>Outdoor storage and carparking areas</b>
<p>Manage impacts of outdoor storage and carparking areas in the Open Space Zone:</p> <ol style="list-style-type: none"> <li>The provision of recreation opportunities and community facilities, including through restricting outdoor storage and carparking areas that are not for the purpose of supporting recreation activities and community facilities on the site, and</li> <li>The amenity values of the zone and on adjoining sites, including through the location of outdoor storage and carparking areas, screening, and landscaping.</li> </ol>	

## Policies — Hutt River Mouth Stabilisation Precinct

<b>OSZ-PREC1-P1</b>	<b>Additional enabled activities</b>
<i>This policy is additional within the Hutt River Mouth Stabilisation Precinct.</i>	
Enable quarrying activities in the Hutt River Mouth Stabilisation Precinct where there is a functional or operational need for the activities to take place within the precinct and adverse effects on the character and amenity values of the	

adjoining zones and coastal marine area are minimised.

## Rules

### Note:

Resource consent may be required under rules in this chapter as well as other chapters. Unless specifically stated, resource consent is required under each relevant rule. The steps to determine the relevant rules and status of an activity are set out in the General Approach chapter.

Activities on public land (such as reserves and parks) may also require permission (such as a lease or licence) from the relevant administering body. For sites in the Open Space Zone, this is likely to be Hutt City Council.
