

Tupua Horo Nuku Update

Eastbourne Community Board

Tuesday 11th February

The bottom right corner of the slide features a decorative graphic consisting of several thick, wavy, light blue lines that flow from the right edge towards the bottom center, creating a sense of movement and depth.

Ngau Matau Bay

- Construction begins at the southern end of Ngau Matau bay
- This aims to make significant progress during the Torea breeding off-season to minimise disruptions.

Whiorau bay

- Construction continues south past the Skerrett boat shed
- A temporary causeway enables crews to continue construction safely and efficiently due to the limited space available

York Bay

- Finishing touches
- Street furniture installation
- Landscaping to follow in May

Sunshine Bay

- Partial completion
- Sewer main work at southern end
- Street furniture installation and line marking

Bird Protection Areas

- Education campaign engagement has been great
- Tamariki from Muritai school have created new bird protection area signage for the Eastern Bays
- Approximately 200 penguin boxes have been installed so far
- 2024 breeding season, 8 nesting pairs were actively monitored

Traffic Control

- Expanding the traffic management area at Whiorau Bay allows the project to progress south in Whiorau Bay and begin work at the southern end of Ngau Matau Bay.
- For the safety of all road users, we ask for vigilance when navigating through work sites
- We continue to monitor traffic duration in both directions from Point Howard to Sunshine Bay
- Please contact us here at tupuahoronuku@huttcity.govt.nz if you have any concerns

Halfway Mark Event

- **When:** Sunday 23 February
- **Time:** 10am to 12pm
- **Where:** Whiorau Reserve
- Parking will be limited, we encourage walking or cycling
- Food and drink fundraiser
- ebike hire will be available on the day
- Come down and join the team as we celebrate this significant milestone

Tupua Horo Nuku

We're halfway there!

E te iti me te rahi, nau mai haere mai!

Join Hutt City Council and the Tupua Horo Nuku team to celebrate reaching the halfway mark of this significant resilience project.

- Local environmental groups in attendance.
- eBike hire available on the day.
- Food and drink fundraiser.

Get out and explore the completed sections of York Bay, Sunshine Bay, and Mā Koromiko.

Stop by Whiorau Reserve and talk with the team about our work-streams in construction, ecology, and engagement across the Eastern Bays.

Parking will be limited. We encourage people to walk, cycle, or ride share to the event.

When: Sunday 23 February

Time: 10am to 12pm

Where: Whiorau Reserve, Eastern Bays, Lower Hutt

Kia ora
Thank You
