Kia ora Danny

I refer to your correspondence of 6 April 2023, in which you ask for information about the flood history of Hyde Street, Wainuiomata. Greater Wellington Regional Council has transferred your information request on this subject to Hutt City Council, as this matter is more closely connected with our functions.

Hutt City Council has received two notifications of flooding incidents in Hyde Street, both on private properties. These incidents occurred in May 2021 and July 2018. We have no records of flooding on the Hyde Street road reserve.

We also advise that Wellington Water has modelled the likely impacts of extreme rainfall on many of the urban areas in Hutt City. Their flood hazard maps show the flooding that will occur in 1-in-10-year-floods and 1-in-100-year floods (including allowance for climate change to 2120). The maps are available through the Hutt City Council's website, at the following link:

<https://wellingtonwater.maps.arcgis.com/apps/MapSeries/index.html?appid=d2c1de318f464ef38a95d3e6438f4bc0>

Ngā mihi

Susan Sales

Message / Information request

Hi i am trying to find out about the history of flooding in Hyde Street Wainuiomata. Could you please get back to me and let me know how many times it has flooded in the last Forty years. Thanks.
