Morena Deena

Thank you for your enquiry of 27 February 2023.

Hutt City Council (HCC) does not currently offer any grant funding for sustainability projects or trips as outlined in your email.

HCC currently supports Toimata Foundation to deliver the EnviroSchools Programme, an environmental action based programme where young people are empowered to design and lead sustainability projects in their schools. We recently increased our funding to enable the EnviroSchools Programme to reach into all Lower Hutt schools. As part of this programme, Toimata Foundation also delivers World of Waste tours, for students to learn about waste minimisation.

For more information, please go to <https://enviroschools.org.nz/regions/wellington/>. As Hutt Valley High School is not yet an EnviroSchool, we have copied in Karyn Burgess, who can provide further information about the programme.

Ngā mihi

**Subject:** [EXTERNAL] For Funding Advisors - Grant Applications Team

Kia ora koutou,

[REDACTED] s7(2)(a) would like to take approximately 50 students in the senior school on a boat trip to learn about

- (a) sustainable fishing, our coastlines, fishing quotas, and sustainable seafood options for cooking.
- (b) fishing
- (c) when back at school - using the whole fish for meals and food safety.
- (d) water safety

I was reading about the different grant funding and wondered if you have one specific to sustainability projects. For example, Upper Hutt Council has the Sustainability Stimulus Grant.

If not, do you know of any other grant-funding organisations that consider sustainability grants? Thank you in advance for your help.

Kind regards,  
Deena
