

11 January 2021

Tēnā koe [REDACTED]

**Request for Information – Local Government Official Information and Meetings Act (LGOIMA) 1987**

We refer to your official information request dated 22 November 2021, requesting the following information:

- *How long on average does it take you to issue a building consent from the time of formal application for a building consent, to the time the code of compliance certificate is issued? Please provide the above information for each quarter since 2017.*
- *How long on average does it take you to issue a building consent from the time of final inspection of the property to the date the code of compliance certificate is issued? Please provide the above information for each quarter since 2017.*

By way of context, a building consent enables a property owner to commence building works. The Code of Compliance Certificate is issued after the completed building work has passed its final inspection, all fees have been paid, and the Council has received a completed application for a Code of Compliance Certificate. To a large extent, the speed of this process is dependent on the time that the applicant takes to fulfil these requirements.

**How long on average does it take you to issue a building consent from the time of formal application for a building consent, to the time the code of compliance certificate is issued? Please provide the above information for each quarter since 2017.**

In the attached spreadsheets, we have provided you with the relevant dates for each building consent application that received a Code of Compliance Certificate between 1 January 2017 and 1 November 2021.

Hutt City Council does not keep a record of the *average* number of days that this process takes, so this information is refused under section 17(g) of the LGOIMA on the grounds that the information requested is not held by Hutt City Council and we have no grounds for believing that the information is held by another agency. The Council does, however, report on the percentage of building consents that are processed within 18 working days; you can locate this information in our [Annual Report 2021](#).

**How long on average does it take you to issue a building consent from the time of final inspection of the property to the date the code of compliance certificate is issued?  
Please provide the above information for each quarter since 2017.**

In the attached spreadsheets, we have provided you with the relevant dates for each building consent application including the date on which Code of Compliance was issued between 1 January 2017 and 1 November 2021. Hutt City Council holds the date of final inspection on a scanned copy of the final inspection sheet, for each individual building consent. To extract and compile this information would necessitate a search through a substantial amount of material, and so this information is refused under section 17(f) of the LGOIMA, on the grounds that the information requested cannot be made available without substantial collation or research.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at [www.ombudsman.parliament.nz](http://www.ombudsman.parliament.nz) or freephone 0800 802 602.

Please note that this letter (with your personal details removed) may be published on the Council's website.

Nāku noa, nā

Hazel McColl  
Commercial Consents Team Lead  
**Hutt City Council**
