Subject: LGOIMA request for information - LGOIMA2022-0072 -

Dear Mr Haywood

Thank you for your information request of 17 February 2023 regarding the cost of installing speed cushion installation on Barnes Street in Seaview.

As you may already be aware, the purpose of these cushions is to reduce unnecessary vehicle speed and antisocial driver behaviour in order to improve safety for all road users in our local community. These treatments have proven successful in achieving the desired safety outcomes.

The cost of installing the speed cushions on Barnes Street is \$97,320.37 (excl. GST and temporary traffic management).

The reasons for the appeared multiple site works during the period of September 2022 - February 2023 were due to:

- Different stages of road works on various components;
- Alteration to traffic management resulted by unexpected events; and
- Defects repairs.

It should be noted that for all roading construction contracts, it is standard practise to hold the contractors accountable to repair any defects that appear within 12 months of the construction date.

We trust the above response addresses your enquiry, however please feel free to contact me directly should further clarification be required. You also have the right to seek an investigation and review by the Ombudsman of this response. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Please note that this letter may be published on the Council's website.

Regards
Bob

Bob Hu
Traffic Engineering Manager
